## Now Will Rogers Plays Hog Siren

Creates Mirth Pandemonium With Hog Calls In "Life Begins At 40"

Two hundred grunting, galloping pigs stampede in Will Rogers' latest picture, "Life Begins At 40," which will be featured next Monday, Tuesday and Wednesday at the New Orpheum Theatre.

During the production of this Fox Film picture, which shows America's favorite humorist in a comedy of errors as a small-town editor, the pigs seemed to enjoy the experience of acting. They frolicked about and refused to be reaped, to the intense disgust of the property man.

Will Rogers, in one scene of his picture, described as a search after the "fun-tain of youth," creates pandemonium in a hog show with his hog-calls. To create veracity, Director George Marshall engaged Hank Bell as instructor.

## FARM PRODUCTS IN FORD AUTOMOBILES

The important part played by farm products in the manufacture of Ford cars and trucks was described yesterday by W. C. Patterson, manager of the Charlotte Branch of the Ford Motor Company, who estimated that the products to be consumed this year will include 500,000 bushels of corn, parts of 20,000 hogs and 30,000 cattle, 3,200,000 pounds of wool, 1,800,000 pounds of soy beans, 69,000,000 pounds of cotton, and many others.

"Some time ago Henry Ford said he was convinced that the basic materials used in motor car manufacture which then came from forest and mine could be secured out of yearly crops," said Mr. Patterson. "That this prophecy was well founded is clearly indicated by a study of the various farm products that will be used in the scheduled production of a million Ford cars and trucks this year."

Mr. Patterson pointed out that from corn comes butyl alcohol used for enamel finishes and other purposes, and starch for stiffening cotton linings. Leather from cattle goes into upholstery, and in addition, glues are made from cow hide, and from cattle goes into upholstery, and in addition, glues are made from cow hide, and from cow's milk, and other parts of cattle yield stearic acid, greases, glycerine and other by-products used in the manufacture of cars.

Soy beans are an important part of the baked enamel finish of a Ford V-8 and are used also in making cores for metal castings and plastic knobs and buttons in the interior of the car. Wool goes into upholstery, floor-coverings, lubricants and anti-rust preparations. Cotton is used in tires, batting, cloth, battery boxes, timing gears, brake linings, and safety glass.

Other products involving farm activities which will be used, according to Mr. Patterson, are 2,400,000 pounds of linseed oil, 341,000 pounds of castor oil, 2,500,000 gallons of molasses. "Ford already has gone far enough to prove that industry can be a good customer of the farmer," he said.

## Jay Anderson Is Music Director

Local Youth Making Envious Record At Wake Forest College This Year

Wake Forest, May 13.—Jay Anderson, son of Mrs. Annie Anderson of North Wilkesboro is to have charge of all music given at Wake Forest college during the 101st commencement. In the absence of the regular organist, Dr. Poteat, he will play for the commencement sermon Sunday, May 26, using the 18-voice student choir of which he is organist and director. The choir will present as the anthem of the morning, Spicker's "Fear Not, O Israel." Again on the following Monday evening at the Alumni address and on Tuesday morning at the graduation exercises Anderson will play on the organ used by Dr. H. M. Poteat, Latin professor here at Wake Forest and nationally known organist.

During the past school year, Anderson, assistant to Dr. Poteat, has played for the Sunday evening services, chapel programs, and has carried programs to radio station WPTF in Raleigh where he received the highest praise for his work as organist and director. Too, along with all his other school work, this young man has found time to work up quartet numbers and solos for Greensboro, Durham, Raleigh; was asked to go to Winston-Salem and other places, was offered a weekly 15-minute program over station WPTF with his double quartet, but due to a lack of time had to decline.

On Sunday evening recently, by arrangements made with Anderson as Baptist Student Union Music Director, a group of twelve Meredith College girls presented a musical program here.

And last night Dr. Poteat presented an organ recital at the church in appreciation of the work done by Anderson and his choir on the campus this year.

## Rudy Vallee, Gob In World War, Is Colonel In Maine

Al Jolson is a Kentucky Colonel. And Dick Powell is a Colonel of the sovereign State of Arkansas.

But Rudy Vallee, now appearing in the Warner Bros. production, "Sweet Music," at the New Orpheum Theatre, isn't at all jealous. He doesn't feel even the slightest quail of envy about that other illustrious Kentucky Colonel, Joe E. Brown.

Rudy Vallee is a Colonel himself, of the state of Maine, where he was reared in the little town of Westbrook, although he was born in Island Pond, Vermont.

Rudy Vallee, incidentally a patriot during the World War, served in the Navy during the war, although he had to lie a year or so onto his age to sign up. He is a member of the American Legion.

He wouldn't think of calling himself, "Colonel Vallee," even though he is proud of the honor.

"Sweet Music" is a gigantic comedy spectacle, based on a story by Jerry Wald. Novel dances and ensembles were directed by Bobby Connolly with hundreds of beautiful girls. Music and lyrics were written by three famous dance teams, Warren and Dubin, Fain and Kahal and Dixon and Wrubel. Rudy Vallee's Connecticut Yankees and Frank and Milt Britton's Orchestra also appear.

Supporting Vallee are Ann Dvorak, Ned Sparks, Helen Morgan, Robert Armstrong, Allen Jenkins, Alice White, Joseph Cawthorn and Al Shean. Alfred E. Green directed from the screen play by Jerry Wald, Carl Erickson and Warren Duff.

## Clyde Michael Still In Serious Condition

Clyde Michael, youth, who received a severe skull fracture in an automobile accident five miles in a semi-conscious state, it was west of this city Sunday, remains learned this morning from The Wilkes Hospital, where he is receiving treatment. The fracture sustained was at the base of his skull and his condition is considered very serious.

## BALLOONIST SAFE AS BAG DESCENDS

Danville, Va., May 13.—Douglass Eger had a narrow escape at the airport yesterday when attempting a free balloon ascension.

The inflated bag tilted as it rose, permitting a gust of cool air to reduce the lifting power of the warm air. As the bag did not rise over 200 feet it was impossible for him to use the parachute at that short distance and he consequently had to ride the balloon down. He made a safe landing, cutting the bag loose as he touched the earth.

## Leaving Today To Attend Kiwanis International Meet

# Important Notice To Subscribers

We have received a fine response from the cards recently mailed subscribers whose subscriptions had expired, but some yet remain past due.

The postal regulations require all newspaper subscriptions to be paid in advance, and this is the reason why we are now making an effort to get our mailing list in condition to meet this government requirement.

To those who have overlooked sending in their renewal, may we add this earnest request for you to do so at once. We sincerely wish you to continue to be a regular reader of our semi-weekly newspaper, the subscription price of which is the lowest of any semi-weekly newspaper in the state, we believe.

Right now while you are reading this issue, won't you look at the label which carries the date your subscription expired, then sit down and send us a check or a dollar bill.

We will greatly appreciate your renewal at this time, which will enable you to continue to receive our newspaper twice a week.

Yours very truly,
