

Local Nine Trims Conover Team 5-3

Home Chair Plays Faultless Ball To Defeat Carolina League Nine

Home Chair baseball players turned into a real diamond aggregation here Tuesday afternoon when they played errorless ball and hit hard to defeat Conover, a member of the Western Carolina League, 5 to 3 in a game cut to seven innings on account of rain and wet grounds. Crook started the stick work for the locals with a smashing circuit drive in the first inning while all of Conover's scoring came in the same frame, after which Carmichael settled down to tight burling. Bush led in for the locals with two out of three while Purky had a perfect day for the visitors with three doubles in as many chances. Score by innings: R. H. E. N. Wilboro 110 102 0-5 7 0 Conover 300 040 0-3 6 3 Batteries: Carmichael, Icenhour; Conover, Grider, Deal, Purky.

Will Play Blanketeers
The highlight of the season takes place this afternoon when Chatham Blanketeers come here for the first engagement of the 1935 season. The game this afternoon is between two evenly matched teams and there is rivalry in abundance to make the affair one of those long to be remembered by baseball fans of this city and adjacent communities.

We Shall Not Sleep

By Lieut. Col. Dr. John McCrae

"In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks still bravely singing fly,
Scarce heard amidst the guns below.

We are the dead;
Short days ago we lived,
Felt dawn,
Saw sunset glow,
Loved and were loved,
And now we lie
In Flanders fields.

Take up our quarrel with the foe;
To you from falling hands
We throw the torch—
Be yours to hold it high;
If ye break faith
With us who die,
We shall not sleep, though poppies grow
In Flanders fields."

We Can't Understand It

According to Roger Babson and other authorities on business conditions throughout the nation, everything apparently is on the up-grade.

There are many millions of dollars more in bank deposits today than there were a year ago. Retail business, during the past two months, is said to have been better than at any time since 1931.

Insurance companies are reporting big gains in the volume of business they are doing.

There are many more people employed in mills and factories than there were a couple of years ago. And yet—

There are almost twice as many people on relief today as there were a year ago.

There is something decidedly wrong somewhere, and we are frank in saying that the whole thing is beyond us. We just naturally can't grasp its meaning.—Carl Goerch, in The State, May 4. (Publication requested by Miss Ruth Linney).
