

### KILLED WHEN CAR CRASH IN HIGH POINT

High Point, Sept. 27.—E. W. Pope, 44, of Thomasville, route one, and an unidentified woman are dead following an automobile wreck at the intersection of Willowbrook and East Green streets about 1 o'clock this morning. The dead man's son, whose first name was not learned, was seriously injured.

Although details of the wreck were unavailable, it was understood that the machine in which the victims were riding crashed into a pole after being involved in a collision with a car driven by Joseph Reese, negro taxi driver, who was arrested.

Pope was instantly killed in the crash, and the woman, who is believed to be a resident of High Point, died in Guilford General hospital shortly after being carried there by an ambulance.

### President Roosevelt in West

WASHINGTON... Heading West with the intent of returning by the Panama Canal, President Roosevelt is on his swing across the country to San Diego, Calif., via St. Louis, Omaha, Cheyenne, Boulder Dam, Salt Lake City and Los Angeles. After viewing the Pacific Exposition at San Diego and delivering the second of his scheduled speeches, The President will board the cruiser Houston for a fishing expedition to Panama Canal, across which he will pass Northward. It is expected that he will land at some southern U. S. port on the Eastern seaboard.

### Legion Picks Iowan For Chief And Calls For Bonus Payment

St. Louis, Sept. 26.—A tumultuous convention of the American legion ended late today with the election of J. Ray Murphy, of Iowa, to lead the world war veterans in a renewed fight for immediate cash payment of the bonus.

Tonight special trains speeded in all directions from St. Louis, and highways were crowded with motor cars, as the third rear guard of the thousands who attended the 17th national meeting turned homeward.

In a colorful closing session, featured by booes, cat-calls and marching, standard waving delegations, the veterans called on Congress to consider the bonus question without reference to "issues of government finance or theories of currency with which the legion does not intend to become involved."

The action, strengthening the demand made by the legion at its Miami, Fla., convention last year, was an emphatic disapproval of congressional passage of the lat-

er vetoed Patman bill, which provided for bonus payment through the issuance of new currency.

### SNOW TRAPS THREE ATOP PIKE'S PEAK; STOCK IS IN DANGER

Denver, Colo., Sept. 27.—Swiftly falling snow—the season's first extensive squall in the northern Rockies—marooned three persons atop Pike's peak and trapped livestock unprotected on summer ranges.

Snow fell until mid-morning in many parts of Colorado and Wyoming. It slowed up the search for a missing airplane near Sheridan, Wyo., where two men and a woman were found burned to death in their wrecked ship.

Caught atop towering Pike's peak when the sudden storm drifted across the winding mountain highway, a woman and two men employed at Summit house, asked Colorado Springs to send a trail breaking truck to them.

### Judge Hayes To Direct Campaign

#### For Community Chest in Greensboro This Year; Organization Feels Fortunate

Greensboro, Sept. 28.—Judge Johnson J. Hayes, of the United States district court of the middle district of North Carolina, has accepted the general chairmanship of the 1935 Community chest campaign for funds to finance the work of Greensboro's 13 private social service agencies during the coming year, Dr. W. C. Jackson, chest president, announced. The Community chest campaign opens October 15.

Judge Hayes is considered by chest officials and others interested in the approaching campaign as an excellent choice for the top volunteer position. Since 1927 he has been judge of United States district court, and during his entire residence here has been interested in numerous civic enterprises and has volunteered his services in a number of civic matters. His important contribution to the Community chest displays his real feeling for social service organizations and is expected to materially aid the chest in the final outcome.

#### Definite Place in Community

Accepting the volunteer position yesterday Judge Hayes said: "I believe in the chest plan for raising funds for the work in social welfare, which we have to do in Greensboro. I feel that Greensboro should plan and organize to take care of its own social problems and not depend on funds from other sources and outside organizations to do the job. I am interested in the whole program of the 13 agencies in the chest and feel that everyone has its definite place in the community. If the committee feels that I am the man for the general chairmanship of this year's campaign, I want to do whatever I can to make the movement the success it should be."

With Judge Hayes showing considerable enthusiasm regarding the coming campaign the committee felt quite fortunate in having secured his volunteer services. Dr. Jackson said: "We are indeed fortunate in securing a man of Judge Hayes' ability and standing in the community to lead our Community chest campaign this year."

"This is a source of encouragement to the officers and directors of the chest and we feel that the citizens of Greensboro will rally behind his leadership to make the effort an outstanding success," he said.

The same sentiment was also made known by other chest officials. Charles W. Phillips, campaign chairman, who is to work with Judge Hayes and other volunteers during the drive, said: "The campaign executive committee feels that Judge Hayes' acceptance of this position goes a long way toward assuring the success of the movement."

### FAYETTEVILLE MAN DIES FROM INJURIES

Fayetteville, Sept. 26.—Owen B. Wightman, 68, well known traveling salesman of this city, died in a hospital at Whiteville this morning from injuries suffered Tuesday in an automobile accident in Columbus county. He died without regaining consciousness, the second victim of a collision. S. E. Humpries, Columbus county farmer, died two hours after the accident.

### Coxey, Sans Army, Again

CHICAGO... General Coxey (above), of Massillon, O., leader of "Coxey's Army" march on Washington in 1894, still has his hat in the ring and is campaigning by truck for the Farmer-Labor presidential nomination in 1936.

### QUESTION AND ANSWER

Question: What is meant by the words "quality eggs?"

Answer: This term is used to determine eggs that are of standard weight, uniform in size, shape and color and with a well finished shell. The eggs should also be infertile and free from blood spots or other foreign material and should contain a large percent of thick albumen and a yolk that will "stand up." Fresh eggs with clean shells that conform to the specifications outlined are classified as "quality eggs" and command a premium when packed and shipped or sold on the local markets.

### BENZENE GAS KILLS PEACH TREE BORERS

Paradichlorobenzene may be hard to pronounce, but it spells death for peach tree borers.

This chemical, when applied properly, will eradicate the borers more satisfactorily than any other control method known, according to C. H. Brannon, extension entomologist at State College.

To get the best results, it should be applied between September 25 and October 10.

Very old trees with large trunks require about an ounce and a quarter of benzene. Younger trees, which may be damaged by too heavy an application, require lesser amounts.

Two or three year old trees should not be given more than half an ounce, Brannon warned. Four or five year olds will take about three-quarters of an ounce. Six year old trees, or older, may be given an ounce without danger.

First break the crust of the soil around the trunk and remove all grass and weeds. Scrape off any gum found on the bark, then level off the soil.

If any borer holes are found just above the surface of the ground, place more earth around the tree until the surface is above the holes.

Place the benzene crystals in a ring around the tree, about an inch from the trunk. Do not let any crystals touch the tree, Brannon cautioned. Neither should they be placed too far away. Then throw a few shovelfuls of

dirt over the crystals and pack into a smooth mound with the back of the shovel.

The gas from benzene crystals is heavier than air, Brannon said, and will not rise up to fumigate any borer holes which may be higher than the level at which the crystals are placed.

Application of superphosphate to his 16-acre pasture permits him to keep twice as many cattle due to the excellent growth of grass, says J. H. Edg. of Yadon county.

HEARTBURN, ACID STOMACH, GAS ON STOMACH?

Have you tried

**ALKA-SELTZER?**

Alka-Seltzer makes a sparkling alkaline drink. As it contains an analgesic, (acetyl-salicylate) it first relieves the pain of everyday ailments, then by restoring the alkaline balance, removes the cause when due to Excess Acid.

Get Alka-Seltzer at your drug store. Large Package 60c. Pocket Size 30c.

**BE WISE-ALKALIZE!**

See THE DIFFERENCE WHEN YOU HAVE GOOD LIGHTING

YOUR child's report card may be an indication of your home lighting.

This is understandable when the effect of eyestrain on health in general is considered. Poor vision is not the only ill arising from poor lighting. Physical disorders are frequently traceable to lighting conditions that impair sight and cause the eyes to work too hard.

Wise parents can protect their children's eyes by having them study under one of the new I.E.S. Better Sight lamps. These lamps are designed to give proper light without glare.

Inquire at our lighting department or at your dealer about this new Better Sight lamp that guards against eyestrain.

I.E.S. BETTER SIGHT LAMPS PROTECT EYES

These new scientific lamps give several times as much useful light as ordinary lamps. There is no glare—just plenty of soft diffused light exactly where you want it on your book or work. There are floor and table models in many attractive finishes and at modest prices. Be sure to look for the certification tag of the Illuminating Engineering Society.

Our annual Mazda Lamp sale is now in progress. Drop by our store or telephone and have one or more cartons sent out. No down payment—you pay with your electric light bill on December 1st and January 1st.

ONE LOOK AT THESE PHENOMENAL FOUR AND YOU'LL SAY

# "BUICK'S THE BUY!"

TWO years ago Buick deliberately leveled its sights on 1936.

It coolly set its aim on bringing to market for that year a line of motor cars that would startle the world.

It purposed to do that, not by freak or superficial design, not by skimping quality to make a price, but by sheer merit as expressed in automobile beauty, value, ability.

It submits to you now the eminently satisfying results of that fruitful two years of concentrated endeavor.

Here are four separate series of sensational new Buick cars — cars called phenomenal by experts in the trade who previewed them.

Each is a feast to the eye schooled in mature modern styling, as you can see.

Each has under the smooth flowing planes and surfaces of its smart exterior, the solid, tough, durable, beautifully engineered chassis that underwrites Buick dependability.

And each offers you from the stepped-up power of its big thrifty valve-in-head eight-cylinder engine such safe,

thrilling performance as you have never known.

These cars are big cars every one — built to almost lavish dimensions of body room and head clearance — yet they handle with the fingertip lightness of small cars.

They are literally breath-taking in power and speed and take-off, yet under their new tiptoe hydraulics and easy-steering knee-action they are almost as manageable as a telephone.

They are thew and sinewed by that quality which springs from Buick's third of a century of manufacturing experience, advantaged by \$14,500,000 worth of new tools, dies and factory re-equipment devised for these cars alone.

These things are so true and so obvious that everywhere you will soon hear the motor-wise saying, "BUICK'S THE BUY!"

"Nerves" "NERVES" "Nerves"  
Dr. Miles NERVINE  
"Did the work" says Miss Glivar  
WHY DON'T YOU TRY IT?

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nerveine which gave her such splendid results that she wrote as an enthusiastic letter.

If you suffer from "Nerves" if you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.

At Drug Stores 25c and \$1.00.
