

Resettlement Administration To Help Farmers With Low Incomes

Raleigh, Oct. 7.—Special orders are being made by the Resettlement Administration to aid low income farmers in North Carolina, according to announcement from Homer H. B. Mask, of Raleigh, Regional Director of Rural Resettlement for the states of Kentucky, North Carolina, Tennessee, Virginia and West Virginia.

"There are more than 50,000 farm families in North Carolina that have a gross income of less than \$400 a year," Mr. Mask said. "This small sum includes the value of what is used at home for food and feed, as well as what is sold for cash. With such limited incomes, it is difficult for these farm families to buy the food items that are necessary for a healthy diet, and virtually impossible for them to acquire land of their own."

"In extending aid to these people," Mask continued, "it will be the policy of the Resettlement Administration to seek permanent rehabilitation of the borrowers by establishing them on farms which, together with other available employment, will yield income enough to make them self-sustaining, give them an acceptable standard of living, and permit amortization of their loans."

Those eligible for loans, in addition to those recently registered as borrowers from State Rural Rehabilitation Corporations, include: farm owners, farm tenants, farm laborers, share croppers, or persons who were recently of the foregoing classes, and other persons with farming experience who are or were recently on relief rolls.

The eligible list also includes those who are in default in payments to a Federal Land Bank and are in danger of foreclosure and eviction, and those who are in default to the Farm Credit Administration or its agencies, or have been denied credit by it. The list is still further broadened to include those found by the Resettlement Administration to be similarly in need of aid, and authority is given to regional di-

rectors of Rural Resettlement to accept other persons consistent with the purposes that guide Resettlement work.

"Those accepted must have initiative and resourcefulness, some managerial capacity, and ability to profit from instruction and guidance," Mr. Mask said.

The loans will bear 5 per cent interest and be payable in two to five years, depending upon the character of the goods and earning capacity of the borrower. Purposes for which loans may be made include: material for repair of buildings and fences; farm machinery, tools and household equipment, livestock; refinancing of mortgages on personal property when it is found impossible to make other equitable adjustment; participation in community cooperative associations, whether existing or to be established; rent on land; labor or professional services; farm supplies and repair items; breeding service; subsistence goods such as food, fuel, and clothing; taxes.

Loans to pay debts secured by personal property will be allowed only when the amount and rate of interest are excessive, and must be preceded by adjustment with creditors.

Loans for purchase of real estate are not yet provided, but are expected to be announced shortly.

Mixed Term Of Court To Begin On November 11

LAST RITES FOR WRECK VICTIMS

(Continued from page one)

Rhoades, of Metcalf, Ill., Mr. and Mrs. T. W. Yates, of Shell Creek, Tenn.

Funeral service for Miss Triplett at Mount Pleasant Wednesday were conducted by Rev. A. E. Watts, pastor. Other ministers taking part were Revs. Levi Green, J. M. Hayes, A. W. Eller and Finley C. Watts.

Pall bearers were Maurice Lawrence and Vaughan Walsh, Lennis Triplett, Raiford Triplett, James Ellis, Bob Church and Roby McNeil. Honorary pall bearers were Prof. R. V. Day, Tom Wake Hayes, Plato Greer, Ralph Davis, Vaughn Jennings, Kyle Hayes and boys of the fifth grade of Millers Creek school.

A beautiful floral offering was carried by Mesdames D. C. Whitington, Florence Thompson, Fannie Yates, R. V. Day, Fred Gaither, Florence Vannoy, Ella Mae West, Edith Triplett, Vada Triplett, Jones and Misses Mae Church, Ruth Nichols, Mamie Church, Oree Church, Ruby Dockery, Vera Eller, Marie McNeil, Fannie Vickers, Marie Church, Verna Foster, Shirley Foster, Avis Foster and girls of the fifth grade of Millers Creek school, of which Miss Triplett was teacher.

Police, Sheriffs To Gather Here In District Meet

(Continued from page one)

The officers in the interests of coordinating the efforts of all groups in a state-wide program of law enforcement.

Among the topics for instruction and discussion at the meeting for this district are rules of evidence, arrests, searches and seizures, investigations, preparation of cases for trial, civil service, politics in law enforcement, and uniform laws and uniform enforcement of the laws.

Along with these will be featured the co-ordination of all groups of law-enforcing officers in the enforcement of the motor vehicle laws, which is one phase of the larger problems of crime prevention and criminal law enforcement.

Wilkes Resident Visits Yellowstone

Harley, N. C. Oct. 7, 1935.

Editor Journal-Patriot: I am enclosing an excerpt from a letter from my daughter, Mrs. G. H. Proffitt. Her vacation this summer was spent, with Mr. Proffitt, at the Yellowstone Park. I think her description of the park, etc. will be very interesting to the readers of your paper.

Very truly yours, MRS. A. J. TAYLOR.

Enclosure

Dear Mother: I guess you folks are all at camp meeting today. I should certainly like to look in upon the group assembled there. I hope the meeting has been successful and a blessing. Someone from Lenoir sent me an Advent Christian Assembly Bulletin. I enjoyed it but don't know whom to thank as it had no name on it.

Our trip to the Yellowstone National Park was just about perfect. We left here on Wednesday morning and returned the following Wednesday night, spent four days and nights in the Park. We visited all the principal points of interest, spending as much time at each as we cared to. It is truly a marvelous place. You find so much variety in scenery.

The Park is about a hundred miles square. In it you find desert, tall mountains covered with trees, (mostly pine or of the pine family), and a few aspens. There are beautiful grassy fields, rivers, and lakes; but the most mysterious things are the geysers and hot springs. The water is clear and comes right up out of the ground boiling hot. You can see the water just bubble and boil and hear the boiling sound.

The springs vary in size from a few inches in diameter to as much as ten or fifteen feet. Some are so deep that you can't see the bottom. Some have such a strong sulphurous odor that it makes one sick.

We saw a pot of boiling mud. It was about 60 feet across the top. The clay is pink in color and looks like paint. It just flops and boils like your soap pot when the soap is almost done.

It is hard to describe the wonders to be seen, but the geysers are the most magnificent things I have ever seen. We sat and watched the Giant Geyser in eruption. It sent up a volume of hot water and steam about 175 feet high and is eight or ten feet wide at the ground. The eruption lasted about an hour. It does not erupt regularly; sometimes it shows off once in three days, again it might wait three months. "Old Faithful" Geyser is not so high but is regular, erupting every hour. As people know just when to be there to see it they crowd around to watch it.

I must not forget the animals. We saw deer, antelope, moose, buffalo, coyote, and last but not least, we saw bear. They just walk up to the car and look one over. They walk around the cabins but if you pay no attention to them, they pay no attention to you. They have regular feeding grounds. We went out and watched the bears eat. There were 40 feeding at one time; three of the mothers brought in three cubs each, several of them two, and some just one. There is a man on guard and if the bears fight or run toward the spectators it is his duty to shoot. There was a man who lectured and told many interesting things about the bears and their habits.

It would be hard to select just the one feature that I enjoyed most. Hamp had been through twice before and was able to plan the trip so that we would not miss anything. I thoroughly enjoyed it.

We came back through eastern Wyoming. It was desert for a hundred miles or more; then we came to a river which we followed through a canyon for fifteen miles. The walls of the canyon were hundreds of feet high, mostly solid rock; the valley was only wide enough for the river, railroad, and the highway. At three places the road went through tunnels in solid rock.

We came through a pretty little town called Cody. It was named for William F. Cody, better known as "Buffalo Bill." There is a museum there containing his furniture and relics of various kinds.

It would be hard to tell all of the interesting sights and incidents of the trip. I shall probably think of many I have left out after I have finished.

We have been out to dinner today with some eastern people. They came from Kentucky but have been here a long time. I meet people often who have come here from the southeast, some from South Carolina, some from North Carolina, one from Alabama. I know several who were born in England and some who are natives of other foreign countries.

Love to all, ANNIE.

Today and Tomorrow

TRAGEDY The Coverdale Bible, which covers the translation of the Bible in English, just 400 years ago—October 1, 1535—has a greater service than has dreamed of.

All Dr. Coverdale was thinking of was to make the Word of God available to all who wanted to read it. But the first result was to arouse the desire to read, among the common people of England. The beginnings of our school system, which denies education to nobody, can be traced to that day. Besides bringing the Bible to the people, Dr. Coverdale gave the English language itself its first fixed form. Before 1535 the upper classes spoke mostly Norman French, and only the lower classes the simple tongue of Anglo-Saxon origin.

The Coverdale Bible, and its revision 36 years later into the King James Version, now the standard translation wherever English is spoken, gave the English people for the first time a common speech, used by all classes. And that, I think, was the beginning of England's greatness.

REFUGEE Bible passage The Bible is still by far the "best seller" of all books. More than 25 million Bibles, complete or selected parts, were sold last year. Tens of millions all over the world go to the Bible for consolation in time of trouble.

I recalled a Bible passage the other day which might well have a wide application in the present disturbed state of the world. It is in II Chronicles, 15th Chapter: "And in those times there was no peace to him that went out, nor to him that came in, but great vexations were upon the inhabitants of the countries. . . . And they entered into a covenant to seek the Lord God of their father with all their heart and with all their soul. . . . And he was found of them; and the Lord gave them rest round about."

PRAYER Its power When an outstanding figure in the field of medical research comes out flatly and declares that prayer has power to heal bodily ills, it is something to pay attention to. Dr. Alexis Carrel, world-famous surgeon of the Rockefeller Institute of Medical Research and winner of the Nobel Prize in medicine, says in his new book, "Man, the Unknown," writing as a medical man: "Our present conception of the influence of prayer upon pathological lesions is based upon the observation of patients who have been cured almost instantly of various affections. . . . The only condition indispensable to the oc-

DELCO RADIO CONSOLE MODEL 1108
6 tubes—3 bands

Delco Radio Console Model 1108 has three bands and gives continuous band coverage from 540 K. C. to 18 megacycles.

Delco clock tuning with a drive ratio of 57 to 1 and automatic tone compensation with volume level are just two of the outstanding features of this radio.

The cabinet, 38" high, 22 1/2" wide and 11 1/2" deep, is very attractive in design. Sliced American Walnut is being used in the top plaque with instrument panel of book-matched Stump Walnut, moulded pilasters and figured Oriental pilaster frame.

current of the phenomenon in prayer. But there is no need for the patient himself to pray, or even to have any religious faith. It is sufficient that someone around him be in a state of prayer."

I have been greatly impressed by the growing belief in the power of prayer to heal. Dr. Carrel's words will go far to confirm believers in their faith.

TURKEYS hire out I hear from the West that there are going to be lots of turkeys for Thanksgiving this year. Dry weather and an unusual invasion of grasshoppers—which turkeys feed on eagerly—are among the causes of the big turkey crop.

The best turkey story I have heard comes from Gypsum, Kansas, where Fred Van Meter has a flock of 700 turkeys. Turkey feed was high, but neighboring farmers were overrun with grasshoppers. So Farmer Van Meter had the bright idea of hiring out his turkey flock, at \$2.50 a day, to eat his neighbors' grasshoppers!

Result—no turkey feed bill and \$2.50 a day net profit. I'd call Fred Van Meter a smart farmer.

EXPATRIATES here too There are more American citizens living in Italy than in any other foreign country except Canada. Altogether, more than 400,000 Americans are recorded by the State Department as living abroad.

Most of them are natives of the countries where they now live, who came to America, became naturalized, accumulated enough to live on "back home," and went back.

Some of them "got American" some back with them. Crossing the Atlantic by the southern route two or three years ago, the ship passed through the Portuguese archipelago of the Azores. All along the shore I saw houses that might have been transplanted from the West.

It seems to me that it would be a good idea to give many citizens of other countries living in America.

About \$48,000 was distributed in rental checks to tobacco farmers of Nash county by the agent last week.

Some of them "got American" some back with them. Crossing the Atlantic by the southern route two or three years ago, the ship passed through the Portuguese archipelago of the Azores. All along the shore I saw houses that might have been transplanted from the West.

It seems to me that it would be a good idea to give many citizens of other countries living in America.

Notice To Taxpayers

I now have the tax books for the year 1935 and will be pleased to receive your tax payments for this year.

If you pay your 1935 County Tax on or before November 1st, 1935, you will be allowed

1 PER CENT DISCOUNT

Early payment will save you money and at the same time you will have an obligation that must be paid entirely out of your way.

Come in today and make payment and save the discount.

W. B. SOMERS
SHERIFF OF WILKES COUNTY

NOTICE OF SALE OF REAL ESTATE

Under and by virtue of the power and authority conferred upon me by order of the Superior Court signed in the case of Alice Wiles, vs. Egbert Wiles, Aldean Wiles, Wallace Wiles, Edna Wiles and Jarvis Wiles, in an action for the foreclosure of a tax lien, wherein appointing the undersigned commissioner to sell the lands described in the petition for the satisfaction of the said tax lien and for division among the parties entitled thereto;

Therefore, under and by virtue of said orders and decrees, I will, on Thursday, October 24, 1935, at ten o'clock a. m., at the courthouse door in Wilkesboro, offer for sale for cash to the highest bidder, the following described real estate:

First Tract: Beginning on a stone, Vaughn Billings' corner, running southeast with J. M. Pruitt's line to a poplar on Square of a branch, Fannie Wiles' corner; then down said branch with Fannie Wiles' line to a stone at the mouth of a big hollow; then up said hollow near North direction to a stone in Vaughn Billings' line; then near west with Vaughn Billings' line to the beginning, containing one-half (1-2) acre, more or less.

Second Tract: Beginning on a red oak, W. M. Bauguess' corner, running north 13 degrees east 63 poles to a small oak; thence north 45 degrees east 24 1-5 poles to a stone; thence south 12 degrees west 28 poles to a stake; thence south 21 1-3 poles to a black gum; thence north 88 1-2 degrees west 21 poles to the beginning, containing 7 3-4 acres, more or less.

Third Tract: Adjoining the lands of R. S. Stillers on the North; J. O. Brewer and Work Huffman on the east; Tre & William Bauguess on the south; and streets Nos. 1 and 2 on the west, containing 3 1/2 acres, more or less.

This the 20th day of September, 1935.
F. L. M. KENNEY,
Commissioner.

Gas is fine in your stove or furnace, but it's both painful and embarrassing in your stomach.

Why don't you use Alka-Seltzer for the relief of ACID INDIGESTION, Colds, Headache, Neuralgia, Fatigue, Muscular, Rheumatic, Sciatic Pains?

Alka-Seltzer makes a pleasant drink and is an unusually effective medicine. Non-laxative, Non-habit-forming, does not depress the heart.

Get your drugist.

BE WISE-ALKALIZE!
