It is very economical, purely vegetable, highly effective. . . Mr. J. Lester Robertson, well known hardware dealer at Martinsville, Va., writes: "I certainly can recommend Black-Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

## BLACK-DRAUGHT

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us nervous, groggy and no good for anything. What makes the food decay in the bowels? Well, when we eat too much, our bile can't digest it. What is the bile juice? It is the most vital digestive juice in our body. It is made up of 3 pints of it are flowing from our liver into our bowels every day, our bowels get hard and constipated and our food decays in our 25 feet of bowels. This decay sends poison all over our body every six minutes. When our friends smell our bad breath and we don't and we feel like a whipped egg, don't use a mouthwash or take a pill. Get at the cause. Take Carter's Little Liver Pills which gently stir the flow of your bile juice. But if something is wrong with your bowels, don't buy it. For it is a calomel (mercury) pill, which makes your teeth, nerves and bowels the return of your life. Ask for Carter's Little Liver Pills by name and get what you want. Form 124. CHICAGO, ILL.
