International Fertilizers

"Satisfaction At Harvest Time"

The quality and popularity of INTERNATIONAL FERTILIZERS is shown by the greater consumption each year by the farmers of this section. International was first sold by us in 1932. The sales amounted to 400 bags. In 1933, we sold 1200 bags. In 1934 we sold 1800 bags, but during the spring season of this year 6,600 bags of International were sold by agents in this county.

No better testimonial could be secured for International than the above figures. They are enough to convince any farmer that INTERNATIONAL is the brand of fertilizer to buy.
