Makes Statement to the Public

As the result of the fire which occurred in our building on April 24th we have thousands of dollars worth of Furniture, Stoves, Pianos, Refrigerators, Rugs, Floor Covering and Hardware, some of it badly damaged, by fire, but the most of it only slightly damaged by smoke or water, all of it is usable however and before we can complete the remodeling of the building it is necessary that all of our present stocks be sold. For that purpose we have turned the stock over to The National Sales System who are under contract to turn the entire stock into cash. They will start selling this stock to the public in a retail sale next Friday and continue until it is all gone.
