AWAY 21 YEARS, SAYS WILKES HAS CHANGED

PHILIP, Arizona, Dec. 1, 1938.

Editor Journal Patriot:

I have been somewhat slow in sending you my check for subscription renewal. However, you will find it here attached. I had a great visit to my old birth place in Wilkes on a continued absence of 21 years. That country sure has changed for the better since I first left there May 14, 1891. I am planning on another visit back there in the summer of 1940.

On our return last year we made a side trip down into Florida—had a fine visit down there, only too much rain. Imagine the difference! We go six months at a time without rain enough to wet a person, but not so in Florida.

We also made a side trip to

If a candle had three ends...

Those who burn the candle at both ends are borrowing tomorrow's pleasures for today. If a candle had three ends they'd burn them all. Then, there's the fellow who never lights his candle at all. He's bluffed by his fears of tomorrow.

The destiny of our America depends upon those who can see today's needs clearly... who can await tomorrow with confidence. Such was the spirit of our gallant forefathers. Had they burned the candle at both ends, or, had they failed to burn it at all... they would have accomplished nothing. Instead, they left us a priceless heritage... a land and opportunities that other nations envy.
