Mrs. Duncan Thinks Wilkesboro School Badly Damaged Editor The Journal-Patriot:

There is a thoroughly aroused public sentiment regarding our school situation, and incidentally a certain amount of muck raking. Family skeletons that have collected dust for generations have been dragged from their places of seclusion and paraded up and down the avenues of public gossip; dainty morsels of scandal have been bandled back and forth across back fenccs; old friendships have been broken and new ones made; unorganized boycotts, on the one hand, and increased adoration, on the other, have shifted centers of trade; local civic and religious organizations have been crippled by the personal antagonisms of their members; but worst of all, the Wilkesboro school has been irreparably damaged for this and possibly for years to come. It is unfortunate that purely personal matters have been dragged in and that public opinion has been influenced by these, but, like cement, beliefs have "set" and no amount of last minute "fixing" and futile hoping can stem the tide of public indignation.

With the exception of a small

group of neutral citizens, chiefly professional people, the public is divided into two factions. These I shall designate as the Montagues and the Capulets, after rival groups in Shakespeare's "The Tragedy of Romeo and Juliet." The Montagues represent the citizens and patrons that are fighting the domination of the local board. They have set forth their purposes in meeting and newspapers. Briefly, they protest the discharge of Superintendent Story and six other teachers, condemn . lops and force as a bridge at which time Mrs. Ivey paper to say a few words about the part politics has played, ask like the boomerang of the native for the resignation of all offici-Honor guests this time being Mrs. ance. (Journal-Patriot, June 26, 1939). This group numbers over 80 per cent, probably 90 per cent of the citizens and bearing over 1,000 names and asking for the re-election of disin full (J-P, May 22, 1939) and and Brookshire as being melavolently misleading. (Charlotte Observer, May 25, 1939). A few timid Montagues, whose relatives stood a fair chance to lose WPA jobs, were silenced, and a few of the opposing faction popular opponents. Otherwise the membership has remained about the same.

The Capulets represent the Prevette, Foster, Brookshire combine, and are backed by the Brookshire, and Foster agreed to county board of education and put back Miss Tuttle and Miss the county superintendent. record of expenditures, as required by law, I must guess at the amount of money extracted from the Wilkes county teachers. The state allots 261 teachers, and the amount set for extortion was "25 per cent of the teacher's checks for last October. (Greensboro Daily News, July 2, 1939). Not knowing the average salary or the extra amounts required of the purse previously, we can estimate that a "voluntary" contribution of some \$7,000 was expected. Denials of such a levy appeared in The Journal-Patriot (Nov. 3, 1933) under the names of the Democratic chairman and the chairman of the county school board, with an article by Ruth Linney, stating she had suggestions. been levied upon. A photostatic copy of her cancelled check appeared in the Greensboro Daily News (July 2, 1939).

Machiavellian force is a power ful weapon when it is employed under cover, in the dark, and from the rear of unsuspecting victims, and the greater fear it can generate the greater is its effectiveness. But alas these who use it often become so drunk from success that they are emholdened to attempt its use in the sunlight of publicity! Then an enraged public opinion de-Australian, recolls upon the very persons who threw it. The Capulets may threaten and rail against a few Montagues who have sound practices in education, they may say that one, two three, or possibly a dozen are responsible for the wrecked school in Wilkesboro, but public opinion, by civilized man, says that the blame rests on those county and Wilkes teachers to be exploited for party gain; who have allowed teachers to become so frightened that they dared not fail backward pupils lest they jeopardize their positions; and who have placed some teachers in such a situation that they had to resign or else compromise their sense of indecrossed over to the increasingly pendence and honor. Within the past few days two such members of the elected Wilkesboro faculty have returned their con-

tracts unsigned. Under these troubled conditions a newly elected principal comes to us. According to reports, he has admonished us not to worry him, because "he will take care of the situation." I shall certainly take him at his word; tion to worry about mortals who rush in where angels fear to tread. Whether he comes as a in a loin cloth, I am confident of him. The community will be hostile to him: children will have cizing the teachers and work of association in condemning the cannot support his principalship; and he will create problems in This faction has an obsession whatever church, lodge or organmust serve as a tool, or if you
