PWA Administrator Orders Cut In Rolls

Washington, Aug. 16.—John M. Carmody, federal works administrator, ordered today that PWA's personnel cut here and in field offices be cut in half.

The reduction, Carmody said, will be started September 1 and continued—with cuts every two weeks in successive pay days—until the present enrollment of 10,417 persons has been brought down to about 5,200.

The order affects 2,472 Washington employes and 7,945 employes.

Carmody announced at the same time consolidation of PWA regions 6 and 7, combining the San Francisco and Portland, Ore., offices with headquarters in San Francisco.

The value of poultry and eggs produced in the United States in 1938 was nearly a billion dollars, or about 12 per cent of the total farm income.

A total of 350 cotton improvement groups had been approved by August 10 for free classification of their 1939 crop as compared with only three for the 1938-39 ginning season.

By sprinkling acid phosphate every few days on manure piles around his dairy barns, A. C. Barefoot, a Harnett county farmer, has practically eliminated flies about his place.

Trucking Of Gasoline Held Public Menace

Charlotte, Aug. 16.—The Mecklenburg county grand jury reported today that transportation of gasoline in motor tanks on the highways of the state was a menace to public safety and municipalities should enact ordinances prohibiting transportation of the inflammable product through the business districts and densely populated areas of all cities.

Judge Don Phillips commended the grand jury for its report and ordered copies of it sent to city and county officials in this vicinity.
