GOVERNOR

Business Needs Government—
Government Needs Maxwell!

A. J. Maxwell is a business man, and is familiar with the operation of the affairs of the State. He knows it needs, and will meet them in a business-like manner through wise administration of his public trust. Your vote of confidence will not be betrayed.

Mr. Maxwell favors more consideration to all-weather roads in the interest of bus travel as it affects the schools and the teachers by reason of suspension following heavy rains and snows. Lost time affects the pupil, and the teacher's pay also.

Maxwell's record as a business man qualifies him for the high office of Governor, because he is consistent in theory and persistent in carrying out his duties. Keep these facts in mind when you go to the polls to cast your vote for Governor of North Carolina.
