1941 Buick To Be Shown Saturday

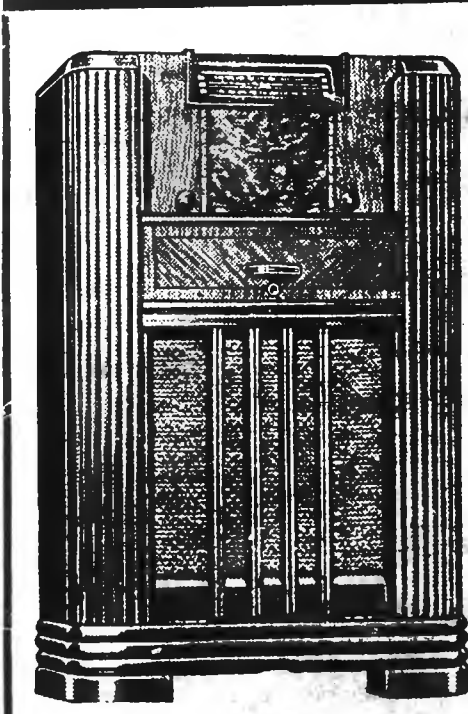

Blue Ridge Motor company, local Buick dealer, announced today that the 1941 model Buicks will be shown at the company's showroom on C street on Saturday, August 7.

The 1941 Buick is truly a very beautiful car and has many new features added to the high quality which has made Buick a famous name in automobile for many years.

Some of the many features of the 1941 Buick include: mass stream styling, fireball valve-in-head engine, compound carburetion, micropulse balancing after assembly, Durex main bearings, fore-aft direction signal, tiptoe hydraulic brakes, recoil-mounted knee action, Buick rear springing, torque tube drive, sealed chassis and many others.

Everybody is invited to see the new Buick Saturday and to get first hand information and demonstrations about what Buick has to offer in the automobile field for 1941.
