Day was program chairman. Enumerating some of the circumstances which contributed to the rise of Hitler, Dr. Cullom first named the hard terms of the Versailles treaty, German indignation at the treaty and their willingness to accept a leader to get them from under the treaty. However, he attributed the main cause of Hitler's rise in power to physical powers outgrowing moral powers. The third point of his address was "What can you and I do about it?" He cited orthopedic work of the North Wilkesboro club and other social service as examples of what can be done to promote growth of moral power to parallel rise of physical power. His address to the club was received with rapt interest. In the business session Dr. A. C. Chamberlain called attention to Bundle Day work of the club last year and the club voted to continue its sponsorship. A committee composed of Dr. A. C. Chamberlain, D. J. Carter, Paul S. Cragan and Gordon Finley was named to make arrangements for carrying out the project. Announcement was made of a meeting of the board of directors to be held at Hotel Wilkes Thursday evening, 6:30.
