

### Lions Will Play Elkin On Friday

#### Rivalry Between Teams Of Neighboring Towns Always Insures Good Game

Mountain Lions of North Wilkesboro High School face two of their hardest games on Friday of this week and on November 15.

The neighboring teams from Elkin and Wilkesboro always give North Wilkesboro plenty of competition and this year will be no exception. Elkin comes here for a game on Friday afternoon of this week, beginning at 3:15, and the annual gridiron classic with Wilkesboro comes the following week.

The Lions have been weakened somewhat by the illness of Robert, rangy backfield star who is depended upon to carry the ball when it is most important and who led all his team mates in that score in games played this year.

But the Lions are not counting on losing any more games, although the remaining teams are perhaps the toughest on the season's schedule. Intense rivalry always insures good games when North Wilkesboro meets Elkin or Wilkesboro.

### Marine Corps Is Wanting Recruits

Captain John M. Greer, Officer in Charge of Marine Corps Recruiting activities in North Carolina, and part of the State of Virginia, announces that a limited number of young men will be accepted for enlistment in the Marine Corps during the month of November—young men between the ages of 18 and 30 years of age, white, single, of good moral character, and of sound physique. Men having previous military service will be accepted up to 35 years of age. Captain Greer states that young men who enlist now have an excellent opportunity of completing or furthering their education, or to learn a trade that would be a great help to any young man in earning his livelihood after he has left the Corps and returned to civilian life. The Captain points out that the Marine Corps offer more than 200 courses through the Marine Corps Institute. These courses are free to every young man who enlists in the Marine Corps.

If interested, write or call in person at the Marine Corps Recruiting Station, 238 Post Office Building, Winston-Salem.

### Returns Point To Democratic Gain In House

Washington.—The Democrats, riding a tide of votes with President Roosevelt, kept control of both House and Senate in Tuesday's election.

An official tabulation at 8:10 a. m. (e.s.t.) showed they had won 222 House seats, for more than a majority, to 107 for the Republicans. In addition, one incumbent American Laborite was re-elected. A majority is 218.

Contrary to Republican predictions that they would gain from 50 to 80 seats, the returns indicated that the Democrats might win a few more than their present House strength of 258.

The Democrats have held control of the House since John N. Garner, now vice president, was chosen speaker in 1931, and of the Senate since victors in the first Roosevelt landslide of 1932 took office on March 4, 1933.

Associated Press returns on the 435 seats in the House of Representatives, compiled to 5:45 a. m. (e.s.t.), showed: Democrats elected 193. (Present Congress, 258; vacancies, 3) Republicans elected 89. (Present Congress, 167; vacancies, 3) Progressives elected, 0. (Present Congress, 2) Farmer - Laborites elected, 0. (Present Congress, 1) American Laborites elected, 1. (Present Congress, 1) contests in doubt, 152. (Necessary for a majority, 218).

Mrs. Margaret Smith, Republican, Maine, was re-elected previously to a second term and Hattie W. Caraway, Democrat, Arkansas, is a carry-over senator.

### Hull's Call For Unity In Foreign Policy Is Signed—Destroyers Removed

Washington, Nov. 6.—Expanded plans for aiding Great Britain appeared to be in the making tonight as Secretary of State Hull called for post-election unity in carrying forward the "principles and practical measures" of President Roosevelt's foreign policies.

These, Hull said in a formal statement, gained "nation-wide approval" in yesterday's election and "our nation can now go forward with the fullest measure of practical teamwork by the government and the people in the firm continuance of those foreign policies."

What specific steps were planned to reinforce British resistance to the axis powers were uncertain. Increasing attention was given here, however, to the question of British sea power as a result of intensified axis submarine activities in the Atlantic and threats in the Mediterranean area.

President Roosevelt and Secretary Hull have been emphasizing the danger to the United States in what the secretary of state called attempts by the "would-be conquerors" to seize control of the oceans.

Expansion of American shipbuilding facilities to turn out replacements for British merchant shipping losses has been under discussion in some quarters to counter the increased submarine menace.
