First Conscientious Objectors Will Be Called In 30 Days

Washington.—The first group of conscientious objectors, whose credits forbid military service in any way, will be called within 30 days for a year's service in non-army camps.

They will go to abandoned military conservation corps camps and, under government supervision, will spend their time on soil conservation, forestation and related work, it was learned today.

An accurate estimate of their number was not available at selective service headquarters, but it was believed there would be several hundred.

Now is the Time to Beware of Contagious Colds!

At a treacherous time like this, with contagious colds all around you, what you do today may save you and your family a lot of sickness, worry and trouble later.

Follow these simple rules of health: Live normally. Avoid excesses. Eat simple food. Drink plenty of water. Keep elimination regular. Take some exercise daily—preferably outdoors. Get plenty of rest and sleep.

Then use these two time-tested treatments when needed. AT THE FIRST SNIFFLE, SNEEZE OR SIGN OF NASAL IRRITATION... put a few drops of Vicks Va-tro-nol up each nostril right away. This helps to prevent many colds from developing, because Va-tro-nol is expressly designed to help Nature's own defenses against colds. (If a head cold causes stuffiness, you'll find that a few drops of Va-tro-nol helps clear the clogging mucus and makes breathing freer and easier.) IF A CHEST COLD OR

COUGHING COLD DEVELOPS (some colds get by all precautions) depend on Vicks VapoRub to relieve misery. Rub VapoRub on throat, chest and back and cover with a warm cloth. VapoRub acts to bring relief 4 ways at once. It stimulates the face of chest and back like a warming poultice. At the same time it releases harmful mucus vapors that are breathed direct into the irritated air passages.

Both Va-tro-nol and VapoRub have been tested through years of use in millions of homes. When you use these two medicines you are not experimenting, you are not taking needless chances. Remember: If the condition of the cold fails to respond quickly to treatment—or if serious trouble is indicated—call your family physician right away. In the meantime be prepared! Get a bottle of Vicks VapoRub today—have them handy ready to use.
