The Young Ladies Bible class of the North Wilkesboro Methodist church will meet Thursday evening at 7:80 o'clock at the home of W. H. Duhling, with Mrs. J. M. Crawford, associant hostess.

Retain Social Security Card

Young men and women who have been working during the summer vacation period and are now preparir; to return to college were cautioned in a statement by Louis H. Clement, manager of the Salisbury office of the Social Security Board, to keep the same social security account number cards issued to them when numbers ready for their employers whenever they return to employment. This also applies to boys and girls of grade and high schools who have been working during vacation periods, Clement stated

"Many a person, after securing a social security account number and working for a short time, either misplaces or loses his account card," Mr. Clement stated, "and we are trying to impress upon each worker the fact that he needs only one account number and should keep it throughout his lifetime."

It was emphasized by Mr Clement that two different social security account numbers may mean smaller old-age and survivors insurance payments when the time comes to file a claim for benefits. In case anyone loses his social security account number card, a duplicate may be secured, Mr. Clement said. "This chance to secure a duplicate number, however, is no reason for the holder of an account number to become careless ond disregard the proper importance of safeguarding his original number. "In other words," Mr. Clement

explained, "young people as well us workers of all ages should unlerstand that the same social security account number a worker secures when he began work is the one he must use whenever he returns to employment. A social recurity account number identiies an insurance policy and upon hat number a worker builds up old-age and survivors insurance credits, based on wages received.

United States Civil Service Examintaions

The United States Civil Service Commission appounces open competitive examinations for the positions of Junior Stenographer and Junior Typist for filling vecancies in the field service in the states of Maryland, North Carothe usual entrance salarles being \$1440 and \$1260 respectively. These examinations are open to

both men and women. Applications for these positions may be filed with the Manhostess served a dessert course. District, Was lington, D. C., un-

til further notice. Competitors will be required to report for written examination, which will be held periodically. The dates of the initial examination and subsequent examinations will depend upon the number of applications received and upon the

needs of the service. Full information and applica tion blanks may be obtained from the Secretary, Board of U. C. Civil Service Examiners, Post Office, North Wilkesboro, N. C.

Revival Meeting At Mountain View

the interior of your home with have shown an increase this sumwall paper, the Jenkins Hard- mer. There were 141 last month ware company is giving you the opportunity to buy at savings as high as 50 per cent.

This firm, which has been doing business in North Wilkesboro for many years, is now conducting its annual Odd-End Sale on Rogers wallpaper, and you have the privilege of choosing between many beautiful patterns.

Rogers wallpaper has been manufactured for years, and is backed by one of the oldest paint companies of the country. While the sale is an odd-end event, the wall paper on sale is of first quality, and guaranteed to give the buyer complete satisfaction.

The special event will not be in progress but a few more days, so if you want to take advantage of the savings offered, the management of the store suggests that you act quick.

To Cream The Profits Skim Off Lazy Practices

The best way to "cream the profits" from a home milk busi ness is "to skim off the lazy practices of not properly caring for your product—the milk," says John A. Arey, extension dairy specialist of N. C. State College.

Specialist Arey suggests that farmers in North Carolina who keep a cow or several cows might teck on the wall of the barn following list of rules to be observed in managing coww3 and milk

The August toll o 145 deaths from preventable acmidenta in North Carolina brought the total for the year so far to set "squeeze play" of all time in 1,144, as compared with \$10 dur. a farm to-farm campaign which ing the corresponding period of will begin next mouth and is 1940. reports compiled by the scheduled to score substantial in tober 6. All gospel music lovers State Board of Health's Division of Vital Statistics show. The in tualty all farm commodities next crease for the month was 25 While a substantial me fority of these deaths resulted from antomobile accidents, August, with its torrid weather, was marked by 30 drownings in North Carolina, compared with 23 in August 1940. But the strie so far this year has heen free from deaths from air plane accidents. The rising birth rate that has

characterized 1941 has been acaccompanied by an increase in infant mortality. There were 431 such deaths reported in August, as compared with 385 in August last year, while births last month totaled 7,370, against 7,173 in August, 1940.

Maternal deaths, showed a continued decline, with 35 reported last month, as compared with 40 the corresponding month last year. Deaths result-If you are planning to decorate ing from diarrhea and enteritis The total for August, last year was only 97.

August births brought the far to 56,623, an increase of farm in North Carolina and 3,294 over the first eight months of 1940; during which time in fant deaths totaled 2,520, an in crease of 403 over the corresponding period in 1940, while maternal deaths showed a decline

No deaths occurred last month 28 the result of poliomyelitis, commonly known as infantile paralysis, but there were four deaths from tetanus, of lockjaw. Typhoid fever calimed one victim compared with 6 in August, 1940 while there was one death from undulant fever. None occurred in August last year. But there was a sharp upturn in deaths from whooping-cough, the August 1941, total having been 21, as compared with six a year ago. Britons next year. Malaria fatalities numbered 3. In August last year they numbered

Harris Gives Hints For Seeding Lawn

The greatest cause of lawr 'ailure is not the kind of seed nown but the poor fertility and physical condition of the soil. says John H. Harris, exetnsion landscape specialist of N. C. State College.

If the seed ted is poor and esnecially if it is lacking in humus. a crop of peas or beans should be grown and turned under to improve the fertility of the soil. Una partly-covered, small-top milk less the land is very fertile, a rotted manure should be into the soil.

Harris pointed out that no amount of commercial fertilizer will take the place of manure and cover crops, since the latter add humus which collects and holds moisture for grass during hot dry summers.

Where top soil has eroded, it should be replaced. To stimulate Keep milk and cream in a quick growth, from 500 to 600 well-ventilated place free from pounds per acre of some commercial fertilizer such as 6-8-6 should be added. The soil should be allowed to settle and only the top layer pulverized for sowing For home owners who want to

have a winter lawn, the State Scrub them in warm water college landscape specialist says nothing equals Italian rye grass. Don't dry them with a towel. In- This should be sown on top of the other grass in September. Better results are obtained if the lawn is raked vigorously or a small amount of top soil used to cover the seed.
