this city.

WINGS FOR THE EAGLE", which Warner Bros. releases locally at the Allen Theatre Thursday and Friday, is a film that does a splendid job of blending individual drama with the one grim story that hovers over all personal conflict—the world struggle to smash the Axis. But this film tells its story not through the soldiers and sailors on the warring front but through the men and women who turn out our planes. Their story is packed with all the action, drama and excitement that one would find on the actual fighting front; the constant fight against time is never out of their minds.
