WAR NEWS

Moscow, Monday. — Red army troops have recaptured several more of Stalingrad's rubble-strewn streets in savage counterattacks which ripped additional gaps in the German wall of infantrymen and tanks and left the Nazis still short of their long-expected victory on the Volga.

As the siege for Stalin's city entered its 28th day, the Red army high command for the third straight communique reported at midnight that Soviet counterblows had flung the enemy back in certain areas "and recaptured several streets" in a struggle hitherto unequalled in this war's ferocity.

The Russians were obeying Stalin's historic order to die rather than to retreat, and successes were measured in yardage in Stalingrad's suburbs, which have been battered to ruins by incessant shelling and bombing.

London.—Britain's biggest bombers, four-motored Lancasters which carry 4,000 and 8,000 pound bombs, left the Nazi birthplace city of Munich a mass of spreading flames Saturday night after a 30-minute attack climaxing a daring 1,300-mile round trip foray which carried the new Allied aerial attack deep into the Reich.

A second force of bombers hammered the German war potential in the Saar Valley, much nearer England.

The British acknowledged losing 10 planes during the night, which on the basis of five per cent losses in big raids, would mean that approximately 200 planes made the attacks on Munich and the Saar.
