Film "Star Spangled Rhythm" Is Coming

Every Paramount star you can think of, and more than that, is in the long-heralded musical comedy, "Star Spangled Rhythm," which comes soon to the Liberty Theatre.

And by "every Paramount star you can think of" we mean such outstanding favorites as Bing Crosby, Bob Hope, Fred MacMurray, Franchot Tone, Ray Milland, Victor Moore, Dorothy Lamour, Paulette Goddard, Vera Zorina, Mary Martin, Dick Powell, Betty Hutton, Eddie Bracken, Veronica Lake, Alan Ladd, Rochester and many, many others.

The story tells of the dilemma of the Paramount studio gatekeeper, Victor Moore, who has been pretending to his sailor son, Eddie Bracken, that he runs the studio. When Eddie shows up on shore leave, the old man is on the spot. Betty Hutton helps him off via a series of hilarious deceptions, in which more than 48 stars and directors actually appear, and do their stuff.

THE GOAT THAT HIDES IN A CAVE

Malta is a little rocky island in the Mediterranean Sea not so very far from Italy. It is the most bombed place in all the world because the Axis seeks desperately to wrest it from England.

There are farmers in Malta, as there are farmers in America. They lead a dangerous life: work when they can and hide when they must. Even the goats have learned to scamper for the caves when the planes are overhead.

We who are free and independent farmers—how would we like to live and work with such terrible odds against us? That is why, as we sell our crops and milk and eggs, we must buy Bonds. We must buy Bonds to the full limit of our ability.

There is another very good reason for buying Bonds, aside from helping to win this war. They are a real investment backed by the strongest government in the world. They return a third more than you pay for them in ten years. They never depreciate in value. And you can always cash them after sixty days if you need the money. Buy Bonds now . . . keep on buying—from your bank or post office.

Withers Leads A Busy Life As A Film Sub-Deb

Being a member of Filmdom's sub-deb set means leading a pretty life. That is why Withers rejected a contract at her old studio, Twentieth Century-Fox, and signed with Republic, which agreed to use her services for only three pictures a year. The first of these pictures, "Johnny Doughboy," reflects the freshness, vivacity and spontaneity which comes from ample leisure time for rest and recreation.

Much of Jane's leisure time is occupied with war activities. She is chairman of the Junior Division of the American Women's Voluntary Services in Westwood. Once a week she picks up, washes and delivers thermos bottles, dishes and baskets from the senior division of the AWVS canteen service. She regularly entertains soldiers from the camp across the street from her home.

She studies continually, all the year round, with a tutor, and she has become one of the most popular party-goers of the younger set, her roster of escorts including Pat Brook, Fred Bartholomew, Bob Cornell, Buddy Pepper, Joe Brown Jr., and Bill Shirley, all actors; A. C. Lyles, Jr., publicist, Dick Clayton of the U. S. Navy, Jackie Searles of the U. S. Signal Corps, and Ray Dixon of the Marines.

"Johnny Doughboy" comes to the Liberty Theatre for a run of two days, starting Monday.

Before its defeat, the Belgian army contained one person out of every 16 in the total population.

The rickshaw was invented by a U. S. marine who visited Japan in 1854 with Commodore Perry.
