Producing Poultry

Drive along any country road you choose in Wilkes and you can spot new chicken houses on almost every farm.

Wilkes people are really doing things in production of poultry.

Many of the chicks will be sold for broilers in a few weeks, providing meat to relieve the shortage of pork and beef. A three-pound chicken can be produced in three months, and that is fast production of meat in any country.

On many farms women and children are doing the labor in producing chickens, and they are thus helping the war program by releasing men for more strenuous duties.

Agricultural Edition

This newspaper has announced that a special edition devoted to increased production of food will appear in the near future.

War time policy of The Journal-Patriot is VICTORY FIRST, and we are endeavoring to the best of our ability to support the war program to the fullest possible extent.

As we have stated before, one of the principal contributions Wilkes county can make to the war program is production of foods. Natural conditions place us in a favorable position to accomplish much in production of food for our fighting men and our valiant allies.

The purpose of the farm, dairy and poultry edition will be to create renewed interest in production of food, and especially the foods which are so badly needed.

Were it not for the fact that the edition will serve a useful purpose toward victory, it would not be attempted at this time and under present conditions.

Since the announcement many have voluntarily expressed hearty approval of the plan and it is anticipated that publication of the edition will meet with the approval of all who are interested in its purpose.

In making the edition this newspaper will receive help from many agricultural authorities and it is our aim that the farm edition will be beneficial to all who receive it.

Red Cross Goal

Goal for the Red Cross war fund drive, which will begin Tuesday, is \$10,000 for Wilkes county.

This figure represents one of the largest ever set up.

But the need for Red Cross funds is greater than ever before in the history of the organization.

Let those who think that \$10,000 is too big a sum for Wilkes county study the proposal. When the analysis is given, it will be shown that the figure represents only an average of about 25 cents each for the county's population.

There are some few who are really not able to contribute anything. And there are thousands who can give from one to five dollars each without making any great sacrifice. There are many who can give from five to 25 dollars each and some who can give larger sums easily. There should be several contributions of \$100 or more each.

But the number of contributions should be large. We make the statement that there should be at least 10,000 people contributing to this Red Cross war fund in Wilkes county—25,000 would be a better figure.

Many workers have been appointed and have been urged to make every effort possible to secure Red Cross contributions.

The Red Cross is doing so many things for the men in the armed forces that we

are not able to enumerate them here. The men in the armed forces are fighting our battles.

If we let them down, we are not worthy of victory.

BUY BONDS

(Reidsville Review)

It is the duty of every loyal, patriotic American to buy War Bonds. It takes huge amounts of money to run the nation's war machine. This money must come from the people. When you buy War Bonds, you are not parting with your money for good, but you are investing it in VICTORY.

You are investing it for the rainy day that most surely will come when the war is over. People who are making good money now had better invest a substantial amount of it in War Bonds as a "back-log" when making good money will be no more.

It is simply wise, prudent and thrifty to save NOW for the future. The best and most patriotic way to save is to buy War Bonds and Stamps.

American forces stationed in New Zealand are supplied, through Lend-Lease arrangements, with the bulk of their food-stuffs, especially fresh meats, dairy products, fruits and vegetables.

A huge depot in Britain, lend-leased to the United States air forces along with its operating personnel of 5,000 has 1,500,000 square feet of floor space and covers 600 acres.

The cumulative value of all Lend-Lease aid extended by the United States from March 11, 1941, to November 30, 1942, was about \$7,500,000,000.

At present, about 15 per cent of total United States munitions production is going to our allies under Lend-Lease and by direct purchase.

LIFE'S BETTER WAY

WALTER E. ISENHOUR, Hiddenite, N. C.

THE FALL OF NATIONS

History records the fall of nations across the centuries of time. Great and small nations have likewise fallen. Let me ask the question, Why no nations fall? We find that they had the blessings of God upon them in many ways. They were blessed with sunshine and rain, fruits, and harvests, minerals and materials of all kinds, and the people had plenty of intelligence and golden opportunities. Many of the nations that have fallen have been educated, and have had great leaders and powerful armies to protect them; but they went down. They crumbled in the dust, so to speak.

There is only one reason, and that is wickedness. No nation has ever been able to survive wickedness and awful iniquity long at a time. A century or two, or maybe more in some instances, of drifting into idolatry, adultery, lustful pleasure, dishonesty, drunkenness, debauchery, profanity, luxury, ease, disobedience to God and the Holy Bible, pride, envy, malice, hatred, murder, the love of money, greed and war fare brings the nation down. This is what history records. The facts are before the eyes of the world.

Judging the future from the past, and beholding the awful, awful, AWFUL wickedness of the nations of earth today, are we not headed for a tremendous downfall? Undoubtedly we are. What brought on the flood in ancient times, which we have recorded in Holy Writ, that destroyed the people from the face of the earth, except Noah and his household who went into the ark? Was it not wickedness, dreadful, horrible wickedness? Most assuredly it was. And did not our blessed Master tell us that it would be like it was in the day of Noah at His coming again? Certainly. Then, what are we facing? How much more wicked must the world become before it is as corrupt and wicked as it was in Noah's day? I don't know, but surely it won't have to be much worse than it is today to equal the age in which he lived.

Wickedness destroys men and nations. Regardless of how great and strong men and nations are intellectually and in wealth, and in manpower and in discoveries and inventions, no nation can bear up under dreadful wickedness. It always brings on moral, physical, mental, material and spiritual collapse. Read history. Observe things for yourself. Wickedness destroys individuals and nations.

Abnormal Absurdities

By DWIGHT NICHOLS, et al.

ON RATIONING

Persons who do not get their war ration book 2's at school this week will have to wait until March 25 to register.

In order to give people ample warning, we thought that in the Monday paper we would have a headline saying: GET YOUR RATION BOOK THIS WEEK OR STARVE FOR 30 DAYS.

After learning how many points it was going to take to get a can of almost anything, we decided to change the headline to read GET YOUR RATION BOOK THIS WEEK AND STARVE.

Knowing that would not be exactly right, we killed the whole thing.

One local citizen, who said he had been accustomed to drinking a big can of tomato juice every morning said that he would get his juice only once each month, since it will take 32 of the 48 allotted points to get one can.

Another said he could get enough canned beans with his book to have beans for dessert twice monthly.

Another said he thought the figure was actually too high—it should be reduced from 48 to 31—

and changed from "points" to "pints".

A "stomach swiveler" might be a good invention for someone, so the present allotment wouldn't "shake, rattle and roll" so much, suggests another.

For the duration the well-fed person is going to be the one who produces and conserves his or her own food.

Come around for dinner, some time, but be sure that it is just after the first of the month and that you have let us have your ration book several hours before dinner time.

Laying all kidding aside, we believe the point rationing system is the best yet, and will be satisfactory if and when the people understand it.

MEXICO HAS U. S. RUBBER

Mexico has been supplied with 240 tons of U. S. rubber to meet industrial needs and will receive more, it is revealed in Mexico City. The supply was made possible by recent trade agreements between the two nations. In exchange for the rubber Mexico will ship a large amount of guayule to American rubber factories.

BIBLE TOPS BOOK LIST

War-time demand has produced the greatest sale of Bibles in history, purchases of the Scriptures exceeding even the high peak in World War I, according to the British and Foreign Bible Society's report in London. Sales in this war total 1,750,000 volumes.

Workers Wanted

The following are some of the job openings listed with the United States Employment Service. For further information call at the Employment Office over the Duke Power Company building. Electrical engineer, Industrial engineer, Mechanical engineer, Motor vehicle dispatcher, Typist, Building laborers.

Checkers (assistant traffic clerk), Stock clerk (property), General clerk (assistant), Personnel clerk (senior), Stenographer, General accountant, Heat treasurer, Machinist, Engine-lathe operator, Turret-lathe operator, Milling-machine operator, Copywriter, Sheet metal worker, Air welder, Leadburner, Stationary engineer, General automobile mechanic, Lineman, Construction painter, Building laborers.

Witnesses in cases from the preceding term of court are required to attend court without being subpoenaed.

Witnesses subpoenaed to appear before the Grand Jury will appear before the Grand Jury on the day subpoenaed to do so, and after they appear before the Grand Jury they will appear back on the day the case is calendared for trial.

Witnesses in cases not reached on the day they are calendared are required to remain in court until the case is finally disposed of or until dismissed by the Solicitor.

All defendants who are in jail and whose cases do not appear on the calendar are subject to be called at any time.
