

GO TO CHURCH
ON
EASTER
SUNDAY, APRIL 25

Take the Family

All Churches Extend a Most Cordial

WELCOME!

At no time in the history of the world has it been more important that we turn our eyes Heavenward and pray for Divine guidance and spiritual help as we are transformed from once peaceful people to that of defender of human rights and liberty for all people of the world.

Countless lives will be called upon to sacrifice themselves; precious blood has been and will continue to be spilled upon the battlefields; parents, brothers and sisters have been made to realize what death means. And on Sunday, April 25, the churches invite you to gather and worship; and pay honor to Him who can save souls and guide the world back to its proper course through the cooperation of and belief by His followers who work together for good.

Pastors of the various churches will have most interesting messages, and you are invited to attend and join in the worship. Your presence will greatly inspire the pastors. Their messages will inspire you, and the community will be made better by means of closer association and worship together as we look to the future with confidence that we may continue to have the privilege of openly worshipping God in the manner of our own choosing, and without fear of punishment by a would-be earthly conqueror. By all means:

Go to Church Easter Sunday!
