

ALL-OUT  
for

**VICTORY**

**WE MUST  
WIN!**

The Battle On the Home Front Is the Battle Of

**PRODUCTION  
Of Foods  
And Vital War Materials**

**Our Efforts Must Not Be  
RATIONED!**

The Government is calling for PRODUCTION . . . more planes, tanks, guns, ships, ammunition, and FOOD for our fighting men plus the needs for home consumption. It's a tremendous task, but we can and will meet it. Poultry and eggs will play a large part in our food supply, and Wilkes county is ideally adapted to produce it in abundance. Prices are sufficiently high to realize a nice margin of profit, and the demand is unlimited, and will be still greater as more and more food items are rationed. Poultry and eggs are not included in restricted foods, leaving a big market to be supplied. It's your duty to help supply it!

**A Splendid, Year-'Round Profit Income  
FROM POULTRY AND EGGS**

These Items Are Not Rationed, and Will Be Greatly Needed to Make Up the Shortage of Various Food

**Start a Flock . . . Now!**

All Orders Given  
**PROMPT  
ATTENTION**  
Tell Us Your Needs!

If you need extra income to meet higher living costs, then start a poultry flock and realize a handsome profit with little effort and very small outlay of cash to get started. Our chicks are blood-tested, and of strains which grow off rapidly and are ready for market early. If you have room for chickens, it's your patriotic duty to raise them; and if you need extra cash it's the sure way to get it. Think this over seriously . . . there's a hungry world to be fed until Victory . . . and afterwards.

For Greater Profits . . . Feed
