We Can Help You While You Help Uncle Sam!

We salute the thousands of Farmers, Dairymen, Poultrymen and Orchardists, many of whom we proudly number among our patrons, for their increased efforts to produce more food on the "home front" during this year. All of us have our war duties to perform on behalf of the thousands of brave men in our armed forces . . . and now it behooves all of us to do more than in the past so that Victory will come quicker and peace may be restored to the peoples of the world. Let's produce more food, buy more War Bonds and Stamps during 1943!
