● LAST-MINUTE WAR NEWS DAILY ●

EVERY DAY IS

Mothers Day  
AT PENNEY'S!

To the millions of American mothers we speak today with feeling. Bringing up a family is the hardest job in the world, and J. C. Penney's knows it! So to mothers of infants, babies, school age youngsters — of fighting men — we speak. If your problems never seem to end — if the war has multiplied them — remember many of them can be solved at Penney's.

For the Penney's platform has always been to simplify mother's family shopping jobs — to treat mother's family budget with courtesy and care.

You'll find at Penney's the finest in Socks and Shirts — Blankets and Bonnets — Fabrics and Footwear.

These — and hundreds more! Not in the same wide selection as in other years, but the best that war conditions permit.

At Penney's we have never made deliveries, or carried charge accounts, or operated costly stores. Mothers know that the economies made possible by this policy mean low prices.

So, Mothers, we meet you and ask you to believe that every day is Mother's Day at Penney's!

## Warcrop Goals In the County Are Exceeded

The local unit of the AAA is known under the name of the Wilkes County Agricultural Conservation Association. The office is located in the upstairs of the county courthouse. The officers of the county association are as follows:

County committee: H. C. Roberts, chairman; W. M. Absher, vice-chairman, and J. A. Poplin, regular member; secretary, S. L. Turner; treasurer, Mrs. Clella Mae Hayes.

In addition to these officers, the county is divided into 39 communities, and in each community are elected three regular committeemen and two alternates. These committeemen are elected by the people of the community, and are set up for the purpose of aiding farmers in any manner possible.

This organization as a unit of the Department of Agriculture, working with the cooperation of the Extension Department has been able to improve the farming conditions in Wilkes county. Some of the main improvements are as follows:

1. During the year 1942, farmers in this county received 11,194 tons of limestone, and it is anticipated that during the year 1943, the farmers of this county will receive 15,000 tons, or more. This material is received as Grant of Aid and is of great assistance to farmers who are unable to buy materials for improving farms, or who are unable to secure this material through other means. Limestone is used chiefly in treatment of pastures and in connection with seeding of various grasses and legumes.

## WILKES TRIPLE A OFFICIALS

H. C. Roberts, prominent farmer of the Cycle community, is chairman of the Triple A committee in Wilkes county. On the right is S. L. Turner, of Wilkesboro, secretary of the committee and executive officer of the Triple A organization, which has office in the Wilkes county courthouse.

2. The farmers of Wilkes county received last year approximately 259,700 pounds of superphosphate, which was distributed to farmers as Grant of Aid to be used in connection with non-depleting crops. Farmers were also allowed to use up to 50 pounds of this material on Home Gardens.

3. In the Spring of 1942, the AAA Program, through co-operation of the Peanut Growers Cooperative, Inc., of Franklin, Va., secured several hundred bushels of soybeans to be seeded for harvest of beans for oil. These beans were secured on promissory notes and could be paid either by cash or deducted from payment earned under the AAA Program.

4. Different varieties of seed were also furnished to farmers as Grant of Aid. These included 3,783 pounds of Austrias Winter Peas, 472 pounds of Hairy Vetch, 3,517 pounds of Crimson Clover, and 2,498 pounds of Italian Ryegrass.

Limestone, Superphosphate, and seed are now available to producers under the 1943 program and several farmers have already taken advantage of securing these materials for the improvement of their soil.

In addition to furnishing these materials as Grant of Aid, the AAA Program also has set up soil-building units for each farm, and payment is made to producers for certain practices carried out. This money is not a gift or a "relief" aid, but farmers must actually earn it to receive it. That is, they must earn the soil-building units required to improve their soil.

In this time of emergency, the AAA farm program gives farmers all over the county an opportunity to work together in saving their soil and improving its fertility, and in bringing about fairer incomes for themselves, as well as aiding the War effort in the production of vital food products. The materials offered through the AAA not only help to higher production, but at the same time build up the soil for future production.

During the past six months, the AAA has added several new programs, which include:

The USDA War Board, which was established to co-ordinate all the services of the U. S. Department of Agriculture into an operating unit to assist farmers in meeting their Warcrop goals. All Warcrop goals assigned by the State USDA War Board for this county have been met and exceeded. Wilkes county was assigned 2,209 acres in soybeans and the farmers of this county have pledged to grow 2,446 acres. The Warcrop goal for sweet potatoes was set at 1,000 acres and the farmers have pledged to grow 1,031 acres. The County War Board and the County AAA Committee wish to congratulate every farmer of this county for a splendid record made in the recent sign-up to meet the county's 1943 production goal.

The County USDA War Board is assisting Selective Service Boards where they find that a producer has sufficient units to be deferred for farm work. They are also assisting in placing farm workers on farms that have sufficient units for deferment.

The Feed Wheat Program, which is the most recent program assigned to the AAA, enables farmers to secure feed for their livestock and poultry at a very low price. The County Committee has placed an order with the Commodity Credit Corporation for six carloads of this feed wheat, which is approximately 540,000 pounds. Delivery of this wheat is expected within the next few days. Wheat bins have been erected on the siding of the Southern Railway in North Wilkesboro for the purpose of storing this wheat.

Every effort is being made by the personnel of the local office, county and community committeemen, and members of the different War Program committees, to assist farmers in this county in carrying out these different programs and in the production of vital food products so needed by America and her allies.

**ROBESON MAN SELLS FOUR PUREBRED BULLS**  
H. B. Ashley of Robeson county has sold four purebred bulls recently, has a fine Hereford breeding herd, and twelve steers on feed, reports Assistant Farm Agent O. P. Owen.

## "FLIGHT FOR FREEDOM" AT ALLEN

The parties to the conversation are Rosalind Russell, star of "Flight for Freedom", and Lieut. J. J. McCormack, U. S. N., technical adviser on the RKO Radio set where the picture was made. Miss Russell portrays an ace woman flier who is called upon to perform a heroic service for the Navy with results that create a worldwide sensation. Showing Monday and Tuesday at the Allen Theatre.

RIGHT NOW — AMERICA

# Needs Food!

EVERY AMERICAN SHOULD FEEL HIS OR HER RESPONSIBILITY TO SHOULDER A SHARE OF THE LOAD IN THE WAR EFFORT. CITIZENS OF WILKES MUST RALLY TO THE CALL FOR FOOD, ONE OF THE MANY THINGS OUR FIGHTERS MUST HAVE IN ABUNDANCE. WE CONGRATULATE EVERYONE PARTICIPATING IN THE CAMPAIGN, AND URGE THAT THEIR BEST EFFORTS BE USED TO PRODUCE AND CONSERVE.

## RUNNING WATER

Dependably - Economically  
Silently - with this

NEW  
F&W  
WATER  
SYSTEM

No belts, no gears, no pulley in this totally new type centrifugal pump. Fewer moving parts; simple rugged construction means longer life, trouble-free service, lower operating cost. Streamlined for greater efficiency; big capacity in small units. Come in, see this remarkable new F&W water system. It brings you running water where you want it, when you want it — dependably, economically, silently!

## FOR VICTORY...

LET'S ALL PRODUCE ALL THE FOOD WE POSSIBLY CAN ON THE "HOME FRONT". WE JOIN IN COMMENDING OUR FARMERS, DAIRYMEN, POULTRYMEN AND ORCHARDISTS FOR THEIR DETERMINATION TO PRODUCE MORE FOOD FOR OUR ARMED FORCES.

## Clad for swift jungle action

With their cool open-neck shirts and lightweight trousers, our tropical soldiers are dressed for comfort and unhampered fighting efficiency.

Whatever the climate, the Army has planned months in advance to style garments for comfort and long wear. Including the underwear, which is just the right fabric and weight to keep our men comfortable wherever they are.

You can enjoy up-to-the-minute styling and easy comfort in your underwear, too. For, during the past 40 years, the makers of HANES Underwear have applied fine craftsmanship to the knitting and tailoring of underwear in correct sizes, styles and weights.

For example, the Hanes-designed Crotch Guard sports (shown at right) provide gentle abrasion support. For complete summer comfort, wear them with a Hanes Undershirt. Knit to exact chest size. Its highly absorbent fabric evaporates perspiration more quickly — keeps you cooler and your top-shirt fresher. P. H. Hanes Knitting Co., Winston-Salem, N. C.

## HANES UNDERWEAR

FOR MEN AND BOYS FOR EVERY SEASON

If you cannot always get your favorite HANES style, please remember that much of our production is going to our Armed Forces.
