British Chief Bids Soviets Beware Japan

Washington. — Prime Minister Winston Churchill, declaring that he and President Roosevelt had reached sound agreement for intensified warfare against Japan, tacitly bid for Russian support in a Pacific offensive yesterday by warning Moscow the Japanese are watching Russia with a purely opportunist eye.

In a 40-minute, joint press conference with the President, he said that while he did not believe it his place to suggest new strategy to the Russian government, the leaders of the Soviet Union must know that Japan's relations with the U. S. S. R. are governed only by opportunism. He would not go beyond that statement except to say the Russians had been great Allies and had written history with their heroic resistance against odds which at one time seemed insurmountable.

Twice in recent weeks Japan has inferentially warned Moscow that it would take quick countermeasures if Russia should decide to make Siberian bases available to the United States. Reporting that he and Mr. Roosevelt had made good progress in their two weeks of war conferences here, Churchill said they had reached sound and good conclusions regarding the Pacific but that the fight against Germany and Italy would be carried on with equal power.

He offered these pointed comments: Drafting of plans for a stepped-up Pacific offensive was one of the main goals of the current talks and parallel meetings of their staff chiefs. New emphasis on the Asiatic theatre does not mean any lessening of vigor in attacks planned against Europe. On the contrary, the fight against the Axis in Europe will be carried on with ever mounting power.

Expressed complete confidence that Russia would stand up this Summer under any new German offensive. Asserted bluntly that the Italians would be very well advised to disown their leaders and throw themselves on the justice of those they have so grievously offended. This was tantamount to a recommendation to Italy to get out of the war.

READERS! PLEASE NOTE:

The Government has restricted the use of paper of newspapers and magazines in 1943. It estimated the curtailment at an average of 10 per cent below 1942 consumption and warned that additional cuts may be expected.

For newspapers the curtailment was accomplished by limiting each paper to amount of newsprint used in 1941 to supply its net paid circulation, with no allowance for the printing of free copies, returns and over-issues. However, a three per cent allowance was granted for spoilage.

For magazines the War Production Board ordered an equivalent conservation by limiting each publisher to 90 per cent of his 1942 paper consumption.

The cut and the unfavorable outlook ahead are the result, WPB said, of increasing military demands for wood pulp for explosives and containers for overseas shipments, combined with dwindling manpower in the woods where pulp logs are cut and shortage of electric power and materials.

When the cut comes those who fall by the wayside will be those who have let their subscriptions get behind. Those who have paid ahead will be certain to get their papers. Journal-Patriot subscribers should renew their subscriptions promptly.

You can't do without your home paper. It tells you what you want to know about people you know. Radio and magazines can't take the place of the home newspaper that records what you want to know and need to know about the home people and home conditions.
