

# Items About Comers and Goers ... From Here and There People You Know Who Move About

Miss Ruth Colvard visited in Beville during the week-end.

Mr. Robert Kimberlin made a business trip to North Wilkesboro Tuesday.—Skyland Post, June 3.

Mrs. Bill Ingram spent the week-end in Elkin with her sister, Mrs. Eugene Spainhour.

A son was born Sunday at the Wilkes hospital to Mr. and Mrs. Buel Gambill, Jr., of this city.

Mr. Carl Bullis, who holds a position in Durham, spent the week-end at his home in Wilkesboro.

Mr. A. E. Shumate, well known resident of the McGrady community, was a business visitor in this city Thursday.

Colvard has as her week, her sister, Mrs. Wilkesboro.—Skyland Post.

Gambill and family, city, spent the week-end in dependence, Va., with relatives and friends.

Mr. R. Smithey, a well known resident of Wilkesboro route two, was in this city Friday looking after business matters.

Mr. and Mrs. Carl Bullis, Misses Roena Bullis and Dorothy Beshears were visitors in Winston-Salem Saturday.

Mr. and Mrs. Homer Pope and family were visitors in North Wilkesboro, on Wednesday.—Skyland Post, June 3.

Mr. Johnson Sanders and family of Wilkesboro, visited relatives and friends at Stratford, Waghany county, Sunday.

Mr. W. O. Barnett, well known resident of the Hendrix community of the county, was a business visitor to the city Saturday.

Mr. Pat Hunt left Friday for Camp Lassater near Winston-Salem where he will be a Junior Counsellor for the summer.

Dr. A. C. Chamberlain was called to Winston-Salem today because of the serious illness of his son, Mr. A. C. Chamberlain.

Mr. Ed Colvard visited Mr. and Mrs. W. P. Wilbar at the home of Mr. and Mrs. L. P. Colvard, on Sunday.—Skyland Post, June 3.

Mrs. J. E. Fowler returned to her home in Flushing, N. Y., the last of the week after a visit here with her mother, Mrs. O. C. Holcomb.

Mr. Roger Bare, Miss Grace Bare, Mrs. C. R. Spears and family, of North Wilkesboro, spent the week-end with their parents, Mr. and Mrs. T. J. Bare, Othello.—Skyland Post, June 3.

Mrs. Marjorie Merritt is spending a few days with her father and mother, Mr. and Mrs. B. H. Wood of North Wilkesboro route 1. Mrs. Merritt holds a position as bus operator with Tide Water Power Co., Wilmington.

## Swimming Pool Here Is Opened

The swimming pool located near the Yackin river between the Wilkesbors opened the 1943 season today.

H. T. Clark, general manager of the pool, stated that many improvements have been made, which will enable the public to more thoroughly enjoy swimming during the season.

Several well experienced life guards have been employed in order to assure a maximum of safety for all.

The pool will use city water and highest sanitation standards will be maintained.

Boy Scouts will operate a refreshment stand, and all patronage will be appreciated by their organization.

## Margie Gabriel Is WCUNC Graduate

Greensboro.—Miss Margie Gabriel, of North Wilkesboro, was one of 413 students to be graduated from the Woman's College of the University of North Carolina at its 51st annual commencement exercises held this morning in Aycock auditorium.

Daughter of Mr. and Mrs. W. G. Gabriel, she received a bachelor of science degree in physical education. Miss Gabriel was her class cheerleader her senior year and belonged to the Recreation Association honor society. She was a member of education club, Square Dance club, Aletheia society and the camp comm'.

Outstanding in her major field, Miss Gabriel went out for baseball, gymnastics, hockey, soccer, speedball and volley ball particularly.

## Home-Made Farm Equipment Used In Poultry Flocks

Good home-made poultry equipment can save thousands of chickens this summer that would otherwise die, says C. F. "Chick" Parrish, Extension Poultryman at N. C. State College.

He says that many flock owners are following a good feeding program, with good birds and good houses, and yet they are using poor equipment. He points out that plenty of hopper space from which to feed, suitable and an ample number of waterers, range shelters, adequate nesting facilities, roosting racks, catching hooks, and nets or screens make for better health and higher production of the farm flock. He calls special attention to a home-made incinerator with which to dispose of dead birds.

Parrish advises that all poultry growers should have a copy of War Series Extension Bulletin No. 5, "Equipment For Poultry", so that they can build at home feed hoppers, waterers, range shelters and other equipment so necessary for properly handling their flocks.

This publication was recently reprinted and a free copy can be obtained by writing the Agricultural Editor, N. C. State College, Raleigh, N. C.

## Pulpwood Scarcity Can Be Overcome

Asserting that current pulpwood shortages can be overcome, Chairman Donald M. Nelson of the War Production Board today appealed to farmers in the states where pulpwood is produced to make an extra effort to increase the production of this item.

"If every one of the more than 3,800,000 farmers in the 27 pulpwood producing states were to devote three extra days in 1943 to cutting pulpwood, we could overcome the threatened 2,500,000-cord shortage with wood to spare," Nelson said.

Pulpwood, Mr. Nelson pointed out, is of high importance as the raw material for ammunition containers, food containers, rayon, smokeless powder and print paper.

"I urge every American farmer to get in touch with his nearest Department of Agriculture representative to find out whether he can be of service in the production of pulpwood," Mr. Nelson said. "I, of course, realize the increased war load which our farmers are bearing today, but the pulpwood situation is serious enough to justify this call for an extra effort."

The Department of Agriculture has called attention to the pressing need for pulpwood, and county agents and State Foresters stand ready to advise farmers on proper cutting and marketing procedure. The War Manpower Commission recently classed production of pulpwood as an essential occupation.

In testimony early this week on the pulp and paper situation before the subcommittee of the House Committee on Inter-State and Foreign Commerce, Mr. Nelson called attention to the reduction in pulpwood supplies.

## Price Of Meat To Be Reduced

Washington, June 5.—A reduction in meat prices, averaging three cents a pound below current retail quotations, was ordered tonight by the Office of Price Administration in its second step toward "rolling back" the cost of living by means of subsidies.

The meat slash will go into effect in retail stores June 21 for all cuts except cured and processed pork, OPA said. For pork products the reductions become effective July 5.

OPA's action was taken in the face of a decision of the House banking committee to forbid payment of subsidies by the Commodity Credit Corporation, and a protest against them by the American meat institute. This organization of packers asked postponement of any subsidy plan until the recently formed war meat board goes into action.

Price Administrator Prentiss M. Brown has expressed determination to roll back the prices of butter, meat, and coffee by ten per cent each, through subsidies financed by the Reconstruction Finance Corporation at a cost of approximately \$400,000,000 per year. The butter subsidy was placed in effect this week, but retail prices will not reflect the five cents per pound subsidy until Thursday.

## FEED WHEAT

The Commodity Credit Corporation has discontinued sales of feed wheat except for a small quantity to be used in the flood area and in deficit feed areas along the Atlantic and Pacific coasts.

Wolves are believed to have disappeared from England before Tudor times.

## Miss Clements Is WCUNE Graduate

Greensboro.—Miss Mary Louise Clements, of North Wilkesboro, was one of 413 students to be graduated from the Woman's College of the University of North Carolina at its 51st annual commencement exercises held this morning in Aycock auditorium.

Daughter of Mrs. J. L. Clements of 812 Sixth street, she received a bachelor of science degree in music education. Outstanding in the field of her major, Miss Clements belonged to choir and glee club, Music Education club, of which she served as secretary and vice president in her junior and senior years respectively, and Young Composers club.

Miss Clements was also a member of Der Deutscher Verein, German students' club, the Y. W. C. A., and her residence hall board.

## Tenant Produced 2,665 Bushels Corn

What is believed to have been one of the largest crops of corn ever produced in Wilkes by one farmer was the crop of F. R. Wilcox, tenant farmer, last year on the Glenn Williams farm in the Goheen community.

Mr. Wilcox said that he produced 2,665 bushels of corn last year on about 48 acres of land. In addition, there were 134 1-2 bushels of wheat.

The amazing thing about the accomplishment was that Mr. Wilcox produced the entire crop with only the work of himself and his three children, ages 14 to 17.

## Dr. Sharbaugh At Davis Hospital

Statesville, June 7.—Dr. George B. Sharbaugh, of Trenton, N. J., for the past several years head of the Eye, Ear, and Throat department of St. Luke's hospital, New York City, is now in charge of the Eye, Ear, and Throat department of the Davis hospital here. He expects to be permanently located in Statesville as member of the Davis hospital staff of specialists.

Dr. Sharbaugh is a graduate of Temple University School of Medicine, Philadelphia.

## Chicken Deaths Cut By Breeding

Selecting chickens for livability rather than altogether for high egg production has brought about a new era in poultry breeding, says Dr. C. B. Bostian, associate in poultry science at the Agricultural Experiment Station, N. C. State College.

Under ordinary conditions many poultrymen lose about 25 per cent of their pullets during the first year. In a test conducted by Bostian, where matings were made from stock not bred for improved livability, the loss was 28 per cent. With another group of birds, kept under exactly the same conditions but from matings selected for improved livability, the loss was only 11 per cent.

Bostian says that these and other investigations show clearly that livability can be improved by breeding and suggests the poultrymen take advantage of this fact in purchasing replacement stock.

In commenting on the tests, Bostian reports that some poultrymen have been culling frequently and carefully to avoid some mortality. He points out, however, that every cull represents a loss in feed consumed, housing space used, and labor expended. Since many culls would die if they were not removed, they may be considered the same as mortality.

Under feed shortage conditions,

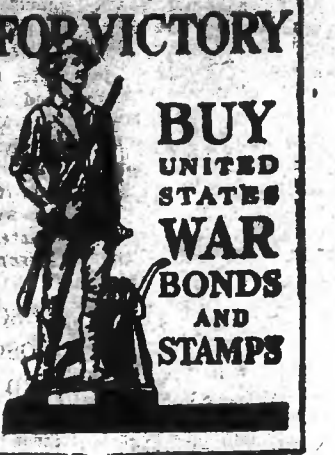

## Wilkesboro Revival to Begin Wednesday

A revival meeting will begin at the Wilkesboro Methodist church Wednesday evening, 8:30 o'clock. The pastor, Rev. Fred H. Shinn, will do the preaching, and the singing will be conducted by Mr. W. A. Dummagan.

The public is cordially invited to attend all services.

Since the official closing of the sponge beds, natives of the Bahamas have made tobacco-growing a major industry.

the fact that mortality in chickens can be considerably reduced through improved methods of breeding is of great significance.
