**AIR FILM HAS MANY THRILLS**

With the major importance of air power and air strategy being demonstrated in every theatre of war today, Walt Disney's decision to produce a combination live-action and animated cartoon feature of Major Alexander P. de

Seversky's "Bomb Alley," "Victory Through Air Power," was a triumph. The picture, filmed in Technicolor, with the Major himself playing in the live-action sequences, is coming to the Liberty Theatre on Monday and Tuesday through United Artists release.

As it is unraveled, the entire history of aviation, from the first take-off of the Wright Brothers at Kitty Hawk to the extraordinary air bombardments now taking place, is flashed before one's eyes.
