## A STATEMENT FOR YOU

Early results in the Fourth War Loan campaign are very satisfactory and encouraging. Our people are responding in their usually fine manner. They realize that it is not only their patriotic duty to buy War Bonds, but that War Bonds represent the safest and best financial investment on earth.

Now, if ever, idle dollars need to come out of hiding and to be invested in War Bonds to back the attack, thus insuring that more of our boys will return home and will return sooner.

As you go home tonight, give a thought for the boys who do not have the privilege of sitting at the family table. They are investing their lives - not dollars - that we may live in peace, security and

We are not asking you to give, or sacrifice. Our country is asking you to invest. This bond drive, as far as Wilkes is concerned, can reach its quota of \$843,000 in a week or ten days if our people will respond without hesitation.

### Brothers Fight Germans and Japs; Your Dollars Can Back Fighting Men's Attack

These two well known young men of this city are two of many Wilkes men who are fighting the enemy on foreign soil, making the attack which one and all are asked to back up with purchase of war bonds. Pfc. James Minton, left, is somewhere in the South Pacific area on combat duty against the Japs. Sgt. Raymond Minton is now with the Fifth Army in Italy, where the Allies are engaging the Germans in fierce battles on the outskirts of Rome. In recent letters to their parents, Mr. and Mrs. Spurgeon Minton, these brothers, fighting on opposite sides of the earth, stated how they would like to be home again, and hoped to be when final victory is won. They and thousands of others can be home sooner, and more of them can return, if the people in comfort and security at home will back their attack with purchase of more war bonds and by doing their utmost at home to promote the war effort.
