\$35,000 'E' Bonds **Needed For Wilkes** To Reach Its Goal

County Already Over Total Ouota But "E" Bond Purchases Are Needed

People of Wilkes county have until Saturday noon to put the coupty over the top in "E" bond purchases during the Sixth War Loan.

And much yet remains to be done, because the county is short of the "E" Bond goal by about \$35,000. In order to reach the goal of \$198,000 in "E" bonds, many bonds must be purchased by noon Saturday of this week.

An urgent appeal is made to the people of Wilkes county to buy extra bonds this week in order that the county may continue to have a perfect record in War Loan drives. The overall quota of \$809,000 has already been exceeded by a wide margin, but to fully back the war effort, the "E' bond quota must be met.

The reports from issuing agents will go into the Federal Reserve bank Saturday noon and the final report will be available January

Some extra "E" bonds by regular bond buyers, and purchases by those who have not been buying bonds can put the county over the top, although the remaining \$35,-000 appears to be a big task ahead with such little time to go.
