western livestock yards of North Wilkesboro since June 14, when first shipments were made from these pens erected by civic clubs of Wilkes county for the convenience of livestock producers in the northwestern North Carolina counties, it is announced by E. S. Curtis, sheep marketing specialist with the state department of agriculture.

He said that Watauga, Avery, Yadkin, Wilkes and Alleghany counties have participated in shipments. Further deliveries will be made about August 1. Curtis, who supervised the establishment of the yards, expressed the opinion that around 2,500 sheep will move through them during the first six months of their operation.

The war department has sent five battle-tested veterans on a 1,500-mile "Wood For War" tour in North Carolina to encourage woods workers to produce more timber and pulpwood.

Women IN THE CHURCH

Women and girls who have left homes and families to engage in war work may become the "forgotten people" of this generation, warns Miss Eleanor Neff, of the Methodist Woman's Society of Christian Service, urging churches everywhere to go out and draw them into active membership.

"When a patient goes to a hospital in Paris these days, he is expected to take his bed sheets along with him," says Mrs. Marc Boegner, wife of the head of the French Protestant Federation, now visiting America. She is suggesting that American women share sheeting, towels, blankets and quilts with the families of pastor, some of them refugees, in not only France, but also in Belgium and Holland. "There could hardly be a greater act of friendship on the part of American women than to share their bed linen with these distressed families," she says. The interdenominational church committee on overseas relief and reconstruction is co-operating with this request of Mrs. Boegner by making their depot (United Church Service, New Windsor, Maryland) a receiving point for these supplies for Europe.

The Chinese women, many of them educated in America, who comprise the board of the Y.W.C.A. in Chengtu, West China, have been meeting and conquering unfamiliar problems in entertaining GI's in that ancient and conservative center. They have learned that the Americans want to date, to dance, to consume coffee and doughnuts. But the conservative community does not approve dating of people of such different traditions as lonely Americans and refugee Chinese girls; the Chinese government has banned dancing for the duration; and neither coffee nor doughnuts are available. So a committee of young married Chinese women act as hostesses at the YW for "Saturday-afternoon-at-home" gatherings. Programs of Chinese music, concerts, shadow boxing, sword play, ping-pong, table football, bridge, chess, etc., are arranged, and sometimes hostesses help the Americans in their shopping for gifts for mothers, sweethearts, etc. Everything seems to be successful except the cups of tea—the GI's still don't
