

WHO'S PULLIN'?

"That's not Joe," says Bossy, "but the milker this morning sure means business."

"Joe's gone off to the wars, but I'll take care of you, Bossy," says Reddy, quick but sort of proud-like. "Fact is, I'm milking a heck of a lot of dairy herds in the Piedmont Carolinas there days. I'm mighty glad I could take over, because some dairy farmers might have to sell their herds if I didn't milk them, manpower being scarce as it is."

Yes, Reddy is helping keep milk production up, and Joe will be glad enough to let him keep on. There will be new ways for Joe to use his skill and time in increasing production through electricity on the postwar farm.

Only Pasteurized Milk for our Armed Forces

Here is the Safe — richer tasting milk for your home

The only reason milk is pasteurized is to make it safer to drink. It can't make good milk from bad. It can't cover up anything. Rather, it was Louis Pasteur who uncovered the fact that only by Pasteurization could milk be continuously and certainly safe from man or animal caused germs, regardless of care. Doctors know it. The Armed Forces demand it. Let Coble "PHD" milk be your safer, finer flavored milk!

Says Johnny Homo: If you serve plenty of "PHD," don't worry about flagging appetites. Milk is the great meal balancer!

At no extra cost!

It costs no more — this Modern milk. Yet, thousands of users prefer it — not only for safety, but because it has a smoother, creamier flavor, plus extra Vitamin D. It has special merit for invalids and babies. Make a Flavor-Test of just one bottle against ordinary milk. We believe you'll leave a "standing order!"
