LINCOLN HEIGHTS High School News

The enrollment figures of Lincoln Heights school show approximately 450 students. This number is more than the total enrollment at the end of the 1945-46 term. The principal J. R. Edelin anticipates an increase in the enrollment next month. The increase is due to a larger first grade enrollment, students entering from other schools of the county and a 12th grade in high school. Students were greeted at the opening by Rev. White who gave helpful instructions to both departments, high school and elementary, on Character Building.

The following officers for the four high school classes have been elected for the term:

9th grade—Mr. J. R. Edelin, home room teacher. President, Garland Barber, vice president, Jackie Bynum, secretary, Rebecca Thomas, treasurer, Naimil Jones. Program committee: Neil Carlton, Norman Hayes and Dorothy Jean Deimle.

10th grade—Mrs. L. G. Jones, home room teacher. President, Rufus Brown, vice president, David Wade, secretary, Betty Brown, treasurer, Edith Golden. Program chairman, Dorothy Gentry, social chairman, J. D. Horton.

11th grade—Mr. A. L. Barber, home room teacher. President, Katherine Cowles, vice president, Thomas Wilborn, secretary, Marie Watkins, assistant secretary, Lola Waugh, treasurer, Marlon Bailey.

12th grade—Mrs. D. M. Edelin, home room teacher. President, Ted Hickerson, vice president, Pauline Satterwhite, secretary, Kenneth Gilreath, treasurer, Bobby Harris, Agriculture, Mr. Overton.

The N. F. A. Organization of Lincoln Heights high school met Sept. 4, 1946 at the Agriculture building with 35 members present. The business for the day was (1) The entering of the Junior Dairy cattle show, which was held Sept. 9th and 10th at the Raleigh State Fairgrounds. The department brought back with it the second and third honors. The second honor was won by Mitchell Watkins, a member of the Junior class. Third place went to Sylvester Cockeran, a member of the senior class. Both animals on exhibition showed all the requirements for good

Women Church

As president of the Women's Christian Temperance Union of India, Mrs. Satyavati S. Chittambar, of Lucknow, widow of Bishop J. R. Chittambar of the Methodist Church, has called upon all the people of India to conserve food because of threatening famine conditions and especially to cease the use of grain for alcoholic beverages during the emergency period. "We appeal to the public in general and to the patriots, to take a strong stand against this awful waste of foodstuffs," she says. "If they are addicted to the use of intoxicants or are in any way connected with its trade, they should show their patriotism at this hour of need and test by giving it up entirely, so that the tons of grain now being used for it may be saved to feed the nation and tide us over the present serious situation."

Franco Regime Plans Legation In Manila

Madrid.—Gen. Francisco Franco's Cabinet, meeting for the first time since the Summer recess, announced yesterday its decision to establish a Spanish legation in Manila and named Theodorico de Aguilar Salas as Minister to the Philippine republic.

Aguilar Salas served until October, 1944, as Minister to Uruguay and was Consul General to Mexico in 1931.

The P-T. A. held its first meeting Thursday night at 8 p. m. Officers are Mr. C. C. Harris, president; Mr. W. H. Hayes, vice president; Miss F. Blackburn, secretary; Miss R. Hunt, assistant secretary; Mr. Harrison Anderson, treasurer; Mrs. D. M. Edelin, chairman of social committee; Mrs. L. Thompson, chairman of program committee. The association has on a drive of \$1,500.00 to build a lunch room at an early date which is badly needed to accommodate the number of students enrolled.

Now Watch The "Feathers Fly"

Raleigh, Sept. 18.—A brighter future for the N. C. poultry industry is probably in the hands of a committee of eight which met in Charlotte, September 11 at 11 a. m. for the purpose of forming the new N. C. Poultry Council. It is reported by R. E. Kelly, N. C. Department of Agriculture marketing specialist.

The need for a state-wide organization has been apparent for the past several years which would protect and foster the continued growth of this fast growing industry that netted Tarheel farmers \$58,000,000 in cash receipts during 1945, Kelly said. The need now is for coordinated effort of all poultry organizations and state institutions in the varied fields of production, processing, feed manufacturing, research and marketing. N. C. can easily support a \$100,000,000 poultry industry, according to Kelly, if all factors that affect production and marketing are coordinated to the extent that these prime factors be efficiently performed.

Representatives from the various organizations vitally connected with the poultry industry which composed the committee meeting in Charlotte were as follows: two members from the Feed Manufacturers Association; two from the N. C. Mutual Hatchery Association; one representing the R. O. P. Association and one poultryman-at-large.

The meeting was a result of a discussion attended by poultrymen and business leaders connected with the industry who met in Raleigh August 24 at the invitation of W. Kerr Scott, Commissioner of Agriculture, for the purpose of discussing the advisability of forming a poultry council. It was the unanimous decision at this earlier meeting which has resulted in the decisive Charlotte meeting.

EDWARD E. McNEILL PROMOTED IN AUSTRIA

Vienna, Austria.—Edward E. McNeill, husband of Mrs. Edna Williams McNeill, Bryson City, N. C. has been promoted to the grade of Corporal according to a recent announcement by Headquarters, 116th Air Communications Service Squadron.

Cpl. McNeill, stationed at Tulln Field, Vienna, Austria, is an Aviation mechanic. His work in ACS helps to make possible the maintaining of communications facilities and radio navigational aids essential to the air

cross which poles occupied Europe and provide vital air transport. ACS means a net-work of weather relays, radio ranges, blind landing aids, and other installations all over Europe which make safer the job that American pilots have to do.

Electricity is rationed in New Zealand, due to this year's drought.

The spillway of the Grand Coulee dam of the Columbia river can produce a waterfall five times the average flow of Niagara Falls and three times as high.

OUR HERDS *Can*
MEET THE NEED
FOR MILK

Agriculture Secretary Anderson, a dairy farmer himself, recently told farmers that present herds are capable of producing the milk our country needs to be well fed.

Dairymen in the Piedmont area are rapidly learning that electricity is a vital aid in producing more milk without increasing manpower.

Electricity will milk your cows . . . cool your milk . . . and grind grain to increase milk supply.* Electric fencing will cut down your feed bill by enabling you to use every nook and corner of your farm for grazing.

Why not see our Farm Specialists about making electricity increase production and PROFIT for YOU?

* Agricultural experiment stations find that cattle fed medium ground grain produced 12 per cent more milk and 12 per cent more fat than when fed whole grain—and gained faster in body weight.

To those who eagerly await their new Chevrolets . . .

Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941.

We know that Chevrolet is doing everything possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America . . . and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that Chevrolet led all other manufacturers in production of passenger cars during June 1946, and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST!

Keep Your Present Car Alive

Meanwhile, may we suggest that you safeguard your transportation by bringing your car to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new Chevrolet comes along.
