

Chairman Speaks For Sale of Seals

Dr. Paul McCain was a pioneer in the fight against tuberculosis in North Carolina and was in part responsible for the strides made against the disease. It is fitting that Mrs. McCain is state chairman of the Christmas seal campaign. Following is her statement:

"We are coming again to that time of year when our thoughts turn to the Tuberculosis Christmas Seal. This year we have not only a pretty seal but a very suggestive one—a team of oxen pulling a sled of Christmas trees. What a wonderful thought—Teamwork.

"Teamwork has saved 4,000,000 lives in the United States since the organization of the National Tuberculosis Association in 1904. It has saved 4,605 lives each year in North Carolina. Conservative figures say each death costs the state \$3,000—thus, a saving of \$4,000,000 per year. This same cooperation has brought about an 80 per cent reduction in the death rate in the last 40 years. Teamwork in sell-

ing Christmas Seals and in Tuberculosis Education has had a great part in this fight. The splendid cooperation between tuberculosis leaders and governmental authorities in the providing of diagnostic facilities and beds for those needing treatment has been very important. We are proud of the showing of North Carolina in 1946—28.5 deaths per 100,000 against a national average of 35.9 deaths per 100,000. Another important factor in this overall teamwork picture is the part played in the fight by those who have had the disease themselves."
