

### Mrs. W. M. Adams Dies In Automobile

Winston-Salem, Feb. — Mrs. Martha B. Adams, 78, of this city died unexpectedly at 11:45 a. m. yesterday in an automobile at Fifth and Cherry Street en route to her home. She had been in declining health for 10 years, but death was unexpected.

Mrs. Adams had been living with her son, Charles Burchette Sr. of 1221 Waughtown Street. She was married to W. M. Adams in 1909. He died in 1940.

Born in Wilkes County March 4, 1869, she was the daughter of John Henry and Sarah Porter Burchette. She was a member

of Immanuel Moravian Church. Survivors include the son; four stepdaughters, Mrs. W. B. Sprinkle, Mrs. Stacey Byrd, and Mrs. Moyer Aaron, all of this city, and Mrs. Mae Reid of Iredell county; two brothers, Edgar and Dave Burchette of North Wilkesboro; three grandchildren, Mrs. Marie Cass, Mrs. Emma Lee Fulcher, and Charles Burchette Jr., all of this city; and two great-grandchildren.

### Gireath News Items Past Week In Brief

The snow and zero weather has slowed up the farm and orchard work.

C. J. Hendren and sons have bought the old Tevepaugh place. They plan to improve the farming land, also put out a large orchard. The citizens of this community are glad to hear this bit of good news.

Mr. and Mrs. Wayne Hendren have arrived here from Baltimore, Md., where he has been employed. He plans to build a home and help run his father's orchard. Wayne is a good fellow and we welcome him home.

Foxes are so plentiful on the Brushy Mountains that they catch people's chickens, out on the range, in the daytime. Mrs. Jones Estep started to the spring and saw a large red fox carrying off one of her fat hens. Some of these fellows that own those good fox hounds help us out.

Brushy Mountain Community is blessed with churches, there being four, which you might see if you were on top of one of the high mountains. On Sunday morning, so surely no one should be found having no church to attend. 1st Sunday services at Cherry Grove, Rev. James Moore, pastor, 2nd Sunday, New Hope, Rev. Glenn Huffman, 3rd Sunday, Bethany, Rev. L. T. Younger, and 4th Sunday, Liberty, Rev. Noah Hayes.

Farmers, orchardists as well as many others, are entitled to a vacation and as there seems no leisure time for it during the twelve-month except in the middle of North Carolina's winter T. J. Hendren knocks off and goes up north to spend a week or ten

days in some of the larger cities. He arrived home Wednesday. While in Baltimore, Md., he visited Mr. Wayne Hendren.

Mr. and Mrs. J. D. Craig are visiting their parents at Granite Falls, N. C. Mr. Craig, a veteran of World War II, bought a farm in this community and he and his wife have proved a real asset to church, at New Hope. Mrs. Craig plays the piano and both teach Sunday school classes.

Mr. J. M. Costner has returned home from Wilkes Hospital, where he underwent a serious operation. (He is getting along nicely.)

Many attended the funeral of Mr. J. F. Barnette, one of the communities oldest citizens, last Thursday.

Harold, son of Mr. and Mrs. Joel Tedder has entered Gardner College, at Shelby, N. C.

There are still plenty of Limbertwig apples for sale, up this way.

Every farmer that hasn't a freezer locker rented, to store some of the good "edibles" of his farm, is missing something. Frozen strawberries are delicious, but take some tree ripened, Belle of Georgia peaches, covered with syrup, then frozen, talk about something good to eat, this just can't be beat.

### School Boys Again Will Put Out Trees

By JOHN E. FORD (Farm Forester)

Seven of the boys who attended the Wilkes County Forestry Field Day this past month have been taking advantage of an offer made by the Wilkes Chamber of Commerce, to the boys attending the field day. These boys will shortly receive 1000 shortleaf pine seedlings each. By planting these seedlings with a spacing of six feet by seven feet each boy will have enough trees to plant one acre of poor land that is at the present producing nothing. These boys will each put an acre of their farm to work producing timber for the future.

The boys planting shortleaf pine this year are: Robert Dimmette, Charles A. Gilliam, Ray W. Johnson, and Hassel A. Key from Ronda School, Edwin McGee from Mt. Pleasant School, Fred Finley, Jr., of North Wilkesboro school and Beechel Snider of Millers Creek school.

### State College Hints To Farm Families

By RUTH CURRENT (State Home Demonstration Agent)

Those small insects—the weevils, beetles and meal moths—which get into cereals and other dry foods in home cupboards are a familiar nuisance to the housewife say agricultural entomologists. Cereal products alone, discarded from home kitchens because insects are found in them, amount to a huge loss in grain, so critical at the present time.

If each family in the United States threw away only 50 cents' worth of cereal food each year because of insect infestation, the loss would total about fifteen million dollars, the entomologists estimate.

Every housewife, therefore, can help the grain-saving program as well as the family pocketbook just by keeping her cupboard free of insects. Simple steps for doing this are: (1) Clean all kitchen shelves thoroughly; (2) Spray cupboards with 5 per cent DDT; (3) Inspect all packages of food for insects; (4) Sterilize food packages in a slow oven (140 degree F.) for half an hour; (5) Keep all food in tightly closed containers. (This will help control ants, cockroaches and other insects as well as the pantry pests.)

Starve by cleanliness. Traces of spilled food and particles sifted from packages and lodged in

cracks and corners of cupboards furnish board for pests. Keeping shelves thoroughly clean is the best way to starve these pests.

Kill by spraying. Spray cupboards with 5 per cent DDT solution every few months. Clear out cupboards, wash and dry them, then spray interior surfaces. The deposit of fine DDT crystals left after the spray dries will be effective for several months in killing insects that crawl into cupboards. Wait until the spray dries to put packages of food on shelves. The dry DDT will not harm food inside packages. But neither will it kill insects already in packages.

Examine dry foods. Insects are in food sometimes when it comes from the store. They may be in flour, meal, cereals, crackers, breakfast food, macaroni, spaghetti, spices, nut meats, dry milk, chocolate, cocoa, dehydrated food, dried fruits. But these foods are not ruined just because a beetle or moth has crawled in. An occasional insect in flour, for example, may be picked out and the flour sifted through a fine sieve. Flour or other food should be sterilized with heat and stored in a clean, tight container. Foods which are heavily infested, however, may only be used to feed pets or chickens.

Sterilize by heat. Dry food products can be freed of insect life by heating in the oven at 140 degrees F. for half an hour. Small packages can be heated just as they are, sealed or opened. Contents of large packages should be spread out on a baking

pan so that heat can penetrate them more easily.

Store safely. Foods which have been sterilized by heat should be stored promptly in clean metal or glass containers with tight-fitting covers. Lard buckets, coffee cans or glass jars make safe containers.

Navy airfield crash and fire-fighting crews are being trained in tactics designed to complete the rescue of all passengers and crew from a crashed or burning airplane within two minutes after the accident.

### Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

### Buick takes the bows—with ten sparkling models, a new

Vibra-Shielded ride, sensational Dynaflo Drive, 30-odd new advances

The curtain's up — the show is on — and square in the spotlight of public favor is this fashion-plate Buick.

This bonnie, brawny beauty is taking bows for the eye-appeal of its ten stunningly-smart models . . .

Catching bouquets on the utter brilliance of Hi-Poised Fireball power . . .

Getting applause for Safety-Ride rims, pillow-soft tires, all-coil springing — for bodies newly sheltered against disturbing noise —

for no less than 30 new features. And it's winning curtain calls on two major advances no other car offers.

One is the fabulous new Dynaflo Drive\* where there is no gearshifting, even automatically. You just step on the gas — and motoring close to magic is yours.

Other star feature is the Vibra-Shielded ride. Here for the first time you're shielded against vibration

build-up that brings on fatigue. Here no tiny tremors can harmonize into big ones. Here is living-room comfort and quiet.

Your Buick dealer is showing this fashion plate that's touched with magic. See it. Check it for spaciousness, for solid-feeling steadiness, for superlative finish, fittings and fabrics.

Then — to get one into your garage at the earliest possible date — get your order in now.

### NO GEARS EVER SHIFT IN DYNAFLOW DRIVE\*

In Buick's new Dynaflo Drive, sliding gear transmissions and complex gear-changers are made unnecessary. You simply set a selector lever and step on the gas. The power plant does the rest, adjusting itself to varying driving conditions with utter smoothness. You start up — accelerate — climb hills — cruise — stop — start up again — all without touching the selector lever.

\*Optional at extra cost on Roadmaster models

## BUICK'S the one and only

WITH ALL THESE FEATURES
