

Some of the 75,000 ABC Pins Get Ready to Travel

Did you know that rules of the American Bowling Congress call for daily replacement of the bowling pins on its 40 tournament alleys? This means some 75,000 new pins are used in the course of the event. The practice assures that every team will compete under exactly the same circumstances. In the photograph above a girl is repacking a few of the discarded pins for distribution by Chevrolet truck to privately owned bowling establishments.

Corn yields have risen from 40 to 85 bushels per acre and hay yields have doubled. A three-year rotation is followed in which two-thirds of the cropland is kept in soil-conserving crops each year. To utilize best his limited cropland and pasture acreage, Mr. Fisher turned to the production of purebred polled Herefords. In addition, seven brood sows were kept in 1947. Hogs were raised mostly on the range, with grain feeding just before market. By conserving the soil building up the land, and practicing sound management principles, members of the Fisher family have made the farm pay and as a result are enjoying a high standard of living.

ADMINISTRATRIX'S NOTICE
Having qualified as administratrix of the estate of W. A. Shumate, late of Wilkes county, this is to notify all persons holding claims against said estate to present them to the undersigned within one year from the date of this notice or same will be pleaded in bar of their recovery. All persons owing said estate please settle at once.
This March 20, 1948.
MRS. W. A. SHUMATE,
Administratrix of W. A. Shumate, dec'd.

POET'S SON, FELLOW ZIONIST HELD IN PALESTINE ARMS PLOT

New York.—The 19-year-old son of Poet Louis Untermeyer and a fellow Zionist were arrested yesterday after police uncovered a large cache of rifles, bayonets and ammunition secreted in food packages bound for Palestine. Police arrested Joseph Untermeyer and Isiah Warshaw, 30, a watchmaker's apprentice, in the loft of a furrier's building as they were packing food and clothing parcels addressed to persons in the all-Jewish city of Tel Aviv. Detectives said more than 100

rifles, at least 300 revolvers, six machineguns, six hand grenades, bayonets, Japanese swords, knives and thousands of rounds of ammunition were hidden in the packages. Cans of cocoa, boxes of cornflakes and matzoths held revolvers wrapped in wax paper. Police said it would take several days to search all the crates and packages found in the loft. The two young men were charged, with possessing concealed weapons, a violation of the Sullivan law. They were released in the custody of their attorneys after arraignment in Felony Court. Their case will be heard on May 14. Police staged the raid on the building, occupied by the fur import-export firm Sondovitch Brothers, after an unidentified person told them he had found six rifles in a navy sea bag on the freight elevator in the building. When the cache of arms was unearthed, police called F.B.I. agents.

Small Farms Can Yield Good Profit

Small farms can be made to yield larger returns by the use of land-building and soil-conserving practices, says C. G. Fisher, Transylvania County demonstration farmer. A report of Mr. Fisher's accomplishments was given by T. K. Jones, farm management analyst at State College. Since 1935 Mr. Fisher has cooperated with TVA and the North Carolina Extension Service in testing high analysis fertilizers, conserving the soil, and following approved practices on his 56-acre farm in the Lake Toxaway community. He had been using 15 acres for cropland and eight acres for pasture. A larger acreage of better quality pasture was needed to support more livestock for a larger income. Five acres of the steeper cropland were shifted to pasture and seven acres more added by clearing woodland. Liberal applications of lime, phosphate, and other fertilizers have resulted in much larger yields of both crops and pasture.

One Permanent Cost \$15 ... the Toni only \$2
WHICH TWIN HAS THE TONI?
(See answer below)
• Easy as rolling your hair up on curlers but the wave stays in for months.
• Yes, your Toni Home Permanent will last just as long as a \$15 beauty-shop wave.
• No frizzy stage. No brittle ends. Your Toni wave is soft, smooth and natural-looking.
• The twins pictured above are Lucerne and Suzanne McCullough, well-known New York artists. Suzanne, the twin at the right, has the Toni.

Looked at and looked up to
This is the one, of course, that you spot at a glance. This is the one that sends a string of facts racing through your mind — if you know automobiles — the instant you see the name ROADMASTER spelled out on its fender. Up to one hundred and fifty Fireball horsepower. Eighteen feet big — and spring-coil lively. Gorgeously finished. Coil-spring cradled on all four wheels. Shod with oversize tires that take extra low pressures for added comfort. Convenient too — with push-button controls not only for the top, but for door windows and the front-seat adjustment as well. No wonder, then, this car is looked up to. This, too, is the only passenger car in this country where the power plant does what gears used to do. Here's the one place you'll find Dynaflo Drive,* in which liquid replaces not only the clutch and manually operated low, second and high, but mechanical gear-changers as well. In short — here's liquid ease and smoothness in delightful new degree, through a sort of "magic muscle" that lets you forget about gear-changing practically entirely. Looked up to for impressive appearance — looked up to for superlative ability. Looked up to for what's newest in engineering advances. If your standards call for a real performer — and for quality a cut above the ordinarily good — specify ROADMASTER when you see your dealer (with or without a car to trade) about getting an order in.
BUICK alone has all these features
* DYNAFLOW DRIVE (Optional, Roadmaster Series)
* TAPER-THRU STYLING (Super and Roadmaster)
* VIBRA-SHIELDED RIDE * SAFETY-RIDE RIMS
* HI-POISED FIREBALL POWER
* ROAD-RITE BALANCE * RIGID TORQUE-TUBE
* QUADRUPLE COIL SPRING
* SOUND-SORBER TOP LINING (Super and Roadmaster)
* DUOMATIC SPARK ADVANCE * FLEX-FIT OIL RINGS
* TEN SMART MODELS * BODY BY FISHER
To an efficient new pump (left above), Buick and an ingenious new supercharging assembly (in hand) which produces a torque-boost result in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you direction.
*Optional at extra cost on Roadmaster models only.
