## Junior Woman's Club Met Monday Evening

On Monday evening the Junior Woman's club met in the recreation room of the Gardner home. The program for the evening was one of the most interesting and informative thus far this year.

Miss Mary Caroon presented Mr. Sam Ogilvie, chairman of the "March of Dimes" campaign for the Wilkes County Chapter, who spoke for the first part of the program. Mr. Ogilvie stressed the urgent need for attaining the quota set up for Wilkes county to help fight the much feared disease of infantile Paralysis.

"Education in North Carolina Today and Tomorrow," a most stirring and enlightening movie was presented as the second half of the evening's program.

The movie gave facts and statistics of the findings of an Educational Survey made in North Carolina last year by appointment of the governor.

The movie was narrated by Mrs. Hight Helms.

During the business session it was decided that January 29, would be the date for the White Elephant and Rummage Sale, with the time and place to be named later.

Plans are being made by the music committee for a concert to be held sometime in March following the Community Concert series.

The Junior Woman's Club voted to sponsor an art contest in the Wilkes County Elementary schools.

The club voted to receive as members, Miss Alice Cassel, Mes-

dames R. L. Abernathy, Ralph Fraiser, Monroe Williams and Robert Morrow.

During the social hour the hostesses group, Mesdames Frank Charles Ziliak, Forest Jones, J. H. Whicker, Jr., Maurice Walsh, and Miss Dorothy Jennings, served refreshments.

**THE NEW FUTURAMICS**

**FUTURAMIC**—the most glamorous word in motor cars now applies to two great lines of Oldsmobiles. Not only the newly styled Futuramic '98'—but also a brand new Futuramic '76' with a new '49 Fisher Body that's lower, wider and offers greater visibility. And this year, Oldsmobile has struck a new balance of power with two great engines for these Futuramic cars. The new "Big Six" Engine in the "76" is more powerful than ever. And the new "98" is powered by the revolutionary "Rocket" Engine. It's a high-compression, valve-in-head eight—an engineering marvel that steps up horsepower to 135, yet actually cuts down on gas costs. Words can't describe it. You've got to drive it yourself for Oldsmobile's "NEW THRILL!"

White sidewall tires optional at extra cost.
