

### Evangelist Keyes' Services Described

Evangelist "Sledgehammer" Andrew Keyes, Jr., preached to one of the largest crowds ever to gather for services in the Watauga County Courthouse, in Boone, Saturday night, April 30th. It was estimated that over a thousand people were at this great service, and many turned away for lack of room. It has been several years since such a crowd gathered for a religious service at the Courthouse, and that was when Rev. Dan Graham went to Boone, and held a great successful revival, with hundreds being saved in his meetings. Evangelist Keyes is widely known through Watauga County and the Blue Ridge

territory, as he is known through Wilkes for his successful work in the Ministry and especially the evangelistic field, through which he has held great and successful revival meetings, since his early youth, and people came from far and near to attend his services, wherever he speaks.

Speaking to the large audience in the Boone Courthouse Saturday night, the evangelist delivered a soul-stirring message on the "Second Coming of Christ." The great tribulation, and final judgment of the wicked. The people of Watauga County have asked Evangelist Keyes to conduct a four week county-wide revival in Boone, and he is now paving the way for this event some time in June in a big open covered tabernacle, which will seat 3,000 people. This

meeting in Boone will also be announced in The Journal-Patriot. Evangelist Keyes announces he will preach at a big home coming Sunday afternoon, May 8th, 2:30, at the Cox place in Hodges Gap, 2 miles from Boone on old highway 611. At this service there will be old time gospel singing by quartets, trios, duets and many fine singers from surrounding counties. A great time in the Lord is expected at this service, and Evangelist Keyes will deliver the message on "The Home Coming in Heaven."

Everyone is cordially invited to attend the Fairplains Community Revival now in progress, being conducted by the evangelist nightly at 7:30 p. m.—Contributed.

### Explains Control Garden Insects

By C. E. VANDEMAN

One application of rotenone insecticide each week will control most of the insect pests of the home vegetable garden. It isn't necessary to know a lot about insects, just apply it every week unless it rains shortly after the application; then repeat. Rotenone, like other insecticides, will be washed off by rain.

Rotenone will control bean beetles on beans; flea beetles on tomatoes, radishes, carrots, beets, and plants grown for greens. It will control cucumber beetles on melons and squash; caterpillars on cabbage, broccoli, cauliflower and lettuce; and worms on cantaloupes.

Either spraying or dusting will do the job if it is applied so that a light, even coating covers the plant. Rotenone dust can be obtained ready-mixed. But to be effective it must contain not less than 0.75 per cent of rotenone. Rotenone is not poisonous to humans or animals in the doses used on garden crops for insect control.

DDT insecticides will give good control of most insects on potatoes. It will also control Japanese beetles on all garden crops. It should not be applied to squash as it may affect plant growth. DDT should not be applied to parts of plants which will be eaten. Dust preparations containing 5 per cent DDT will give effective control.

## MOTHER'S DAY

### Reddy Thoughts On A Famous Mother

Can't think of any mothers, or even grandmothers, I work for just sitting around in a cap with their hands folded.

Could be I keep mothers young . . . do so much of their work they feel too spry and energetic to sit around. Could be, too, they'd be bored just sitting out all the leisure I give them . . . and having so many interests keep them young and active. Think I'll go right on making every day Mother's Day, for the thousands of mothers I work for.

IT'S WILSON TODAY  
IN SPORTS EQUIPMENT

The name Wilson is seen on baseball equipment more frequently than any other make. Players everywhere know that Wilson means the latest and best. By every form of comparison . . . materials, workmanship, and performance . . . no finer equipment is made today than that which bears the Wilson name. This is the result of close association that Wilson has had with every phase of the game . . . from sandlot to designing and supplying baseball equipment for the major leagues.

### Gaston Couple Sued For Liquor Taxes

Raleigh, May 2.—In the second such case on record, the State Department of Revenue filed a judgment against a Gaston County couple today to recover \$45,995.63 on alleged illegal liquor sales.

Revenue Commissioner Edwin Gill said the judgment was filed in Gaston Superior Court against Mr. and Mrs. J. C. Hensley of Gaston County. The claim covers tax, penalties and interest and covers the alleged illegal sales during the period from January 1, 1946, to December 31, 1947, Gill stated.

Early in March the revenue department obtained a ruling from the attorney general's department that it is entitled to recover taxes on liquor sales, whether legal or illegal. Last month, the department filed the first such action against two Asheville men.

### Former Police Officer Found Guilty In Case

Newton, May 2.—Aside from the fact that Hickory Township Constable O. D. Barrs has appealed his conviction and \$1,000 fine from the Hickory municipal court, the celebrated Catawba County whisky case ended with the conviction of George Sherrill, a former Hickory policeman, on a charge of possession and transportation of illicit liquor.

Sherrill, who was arrested with Barrs and O. D. Hunt, owner of a night club where Barrs and Sherrill were supposed to be delivering whisky, was fined \$400 and assessed the court costs.

He also appealed to Superior Court and has been released under bond of \$500. A bond of \$750 has been fixed and met on the automobile which was allegedly used in the transportation case.

Barrs has since asked the Catawba County commissioners that he be relieved of his duties as Hickory Township constable, due to "ill health." This request has been granted. Barrs and Sherrill are due for Superior Court trials in July in Newton.
