An Open Letter To Poultrymen And Customers Of Wilkes County:

We are pleased to announce to the poultrymen and to our customers in Wilkes and adjoining counties that we are now in our new hatchery plant located two miles north of North Wilkesboro at Fairplains on Highway No. 18.

Having a profound belief in the future of the poultry industry in Northwestern North Carolina, we have erected a new, modern hatchery plant with one purpose in view and that is to hatch a better broiler-type baby chick and better serve the poultrymen in this section.

The poultry business, and especially broiler raising, has grown during the past few years from a small, part time business to a multi-million dollar industry. We are proud to have had some part in this growth. We are proud of the quality of our chicks and we are proud of the name you, our customers gave them—"Dancy's Dandies." However, we are not satisfied and we pledge to you that we shall continue to strive to hatch just a little better broiler-type baby chick. We regret that we are unable to supply the demand but it is our hope that we may continue to grow with you, keeping foremost in our minds quality rather than quantity.

Sincerely Yours,

WILKES HATCHERY.
