BETTER HOMES FURNITURE CO.

Where Furniture Is A Business — Not A Sideline
East Main Street North Wilkesboro, N. C.

A New HAYING SYSTEM

... Fewer Men ... More Hay ... and Rolled Bales

These three Allis-Chalmers machines mechanize your hay harvest from start to finish. You don't even need a pitchfork. You get better quality hay, and use a smaller crew.

FRONT-MOUNTED MOWER

Always in easy view of the operator. Better control for mowing around obstructions. Fast hydraulic lift. Unmatched stability, particularly on hillsides. Hydraulically controlled sickle bar.

TRACTOR RAKE

Really engineered for tractor power. Power-driven, has two forward reel speeds and one reverse for tedding — shift easily as shifting your car. Castored, rubber-tired, front wheel makes it easy to lay clean, straight windrows, without pitching or roping. Ball and roller bearings throughout.

ROTO-BALER

ROTO-BALER makes weather-resistant, rolled bales — fast. Saves more leaves. Rolled bales can be fed with less waste, whole or unrolled. You can stack more tons of hay in a given area. They don't break apart when handled rough. Twine-wrapped — safe for livestock.

For full information on the Allis-Chalmers haying system stop in and see us.
