Lewis Fork Club Has Business Meeting

The Lewis Fork Home Demonstration Club met July 22, at the home of Mrs. Coy Eller.

The minutes of the previous meeting were read and approved. During the business session the club voted to send a delegate to Raleigh for Farm and Home week. Our delegate was Mrs. Cyrus Whittington.

Mrs. Annie H. Greene, our home agent, had charge of the

Demonstration for July. She gave us some very interesting information on "Business Relations in the Home." She reviewed with us the N. C. laws. The law will dispose of our property as it sees fit, if we want it some other way we should leave a will that is properly made out and legally signed and witnessed. This way we can feel sure our wishes will be carried out. At the close of the meeting delicious refreshments were served by Mrs. Eller's daughters Madge and Mavis and Gerry Eller. The meeting adjourned to meet in August at Mrs. A. J. Proffit's home for a picnic. "At least one permanent pasture on every farm in North Carolina is now the goal of the State College Extension Service," says S. H. Dobson, extension pasture specialist.

Where Sixty Minutes Seem but Half an Hour!

DISTANCE isn't the only thing which passes swiftly when you sit at the wheel of a 1949 Cadillac. So does time!

You rest your hand on the beautiful steering wheel and press your toe—ever so lightly—against the obedient throttle . . . and you're off on a wonderful journey.

Your ride is free and easy and restful. You just sit—and relax—and enjoy the scenery—and the companionship of those about you. Conversation is as easy as if you were sitting in your own drawing room—for the car is so quiet you can hear the soft ticking of the electric clock.

The labor of driving is almost nonexistent. The big powerful motor moves you in and out of traffic as if by automatic propulsion. Steering is little more than a response to your wish. Brakes are light to the touch and velvety-smooth in action.

You are as relaxed and care-free as the happy passengers around you.

For you do little more than the thinking—and the car does the rest. And then a familiar landmark looms in the distance. Can it be that you are there?

You look at the clock and you look at the speedometer—and, surely enough, the time and the distance have passed, and your journey is over.

Better come in and see for yourself that—when you sit at the wheel of a Cadillac—*sixty minutes* seem but *half an hour!*
