

Sanitation And Good Health

By ROBERT L. CAVINESS
(North Carolina State Board of Health)

"Last week, at Blue Ridge Assembly, in the mountains of North Carolina, the Annual Interstate Sanitation Seminar was held, with the largest attendance of sanitarians and sanitary engineers which has ever been present. Without fanfare or press notice, some 325 men from Maryland, Virginia, West Virginia, South Carolina, North Carolina,

the District of Columbia and the United States Public Health Service, discussed, for three days, many problems which so vitally affect our health and happiness in the modern way of life. It was truly an inspiration to have the privilege of sitting in on these discussions and hearing, first hand, how these public health workers have dedicated themselves to their fellowmen."

"The central theme of the Seminar at Blue Ridge was Sanitation Education and Public Relations. One of the highlights of the session was the program on 'School Sanitation Programs in Action.' Set up in the form of a panel discussion, a mock meet-

ing was held, in which the school board, the superintendent, the principal, the students, the parents, the teacher and the sanitarians were represented. It was shown that effective results could be easily obtained.

Thousands of our North Carolina children have returned to schools throughout the State. Some of these schools are large, with all modern conveniences and facilities. Some are very small, and some have facilities which are completely inadequate, with many insanitary and unhealthy conditions surrounding them. Let the people of North Carolina pledge to our future citizens, the North Carolina of tomorrow, the complete cognizance of the importance of the school environment. We must join hands and forces in a spirit of cooperation toward the betterment of the sanitation in our schools. An unsafe water supply, unsafe sewage disposal, poor heating, lighting, ventilation, and unsanitary eating facilities, are not for the children on whom we must depend to continue this progressive way of life. There are thousands of our people who do not know the conditions. Here the role of Public Health Education has its place. Your State and local Health Departments and the sanitarians of these departments solicit the help of everyone in bringing our school sanitation to the very highest point possible. It will take teamwork and it will make for healthy and happy children.

Sanitation is a part of our everyday lives. Good sanitation and sanitation practices mean good health and happy living. Poor sanitation and sanitation practices mean filth, diseases and

Southern Baptist Mission Fund Up

A ten per cent gain in mission gifts the first six months of 1949, as compared with the same period in 1948, has been reported by Duke K. McCall, executive secretary and treasurer of the Southern Baptist Convention Executive Committee.

The first-half total for 1949 is \$5,847,899.81, Dr. McCall said. Of this amount, \$3,154,081 was through the denomination's general Cooperative Program and the remainder was designated to particular mission objects.

Receipts for the first six months of 1948 showed a 23 per cent increase over the same period in 1947, Dr. McCall said.

You ought to be driving a '49 **PONTIAC**

A Product of General Motors

Distinguished by a Beauty All Its Own!

There's an unmistakable stamp of distinction about the new Pontiac. It's a beauty from the front and it's a beauty from the rear!

Wherever you see its "Silver Streak" styling—in city traffic, on the highway, or silhouetted at the curb—you know immediately that it's a Pontiac and something very special among automobiles.

And Pontiac's performance is equally unmistakable—thanks to Pontiac's great power plants, the straight eight or the six, and to the amazing driving convenience of GM Hydra-Matic Drive.*

Even though Pontiac is in a class by itself for beauty, for performance and for dependability, it is still the lowest priced straight eight in America!

Why not come in soon and get the whole Pontiac story?

SAFE-NEW DRIVER VIEW! Pontiac's wide, optically curved windshield, plus wider windows and slimmer pillars all around, gives you a new driving horizon.

*Hydra-Matic Drive optional on all models at extra cost.
