

Two Of Yadkin Get Sentences

Two Yadkin county boys who engaged in a police chase in a liquor-laden car in Winston-Salem on August 22, were tried in City County court there Tuesday.

Tommie Pinnix, 24, of Cycle, was assessed about \$700 in costs and fines, was given sentences as follows: reckless driving, \$250 and costs and two years suspended for five years, drivers license revoked three years; violating prohibition law, \$100.00 and costs, 12 months on roads sus-

spended five years; hit and run, two years on the roads, drivers license revoked three years.

In addition to above he was ordered to pay \$107.25 for damages to a parked car he hit trying to escape, and \$186.41 for damages to police car and hospital bills for wounded officers. The suspended sentences require that he be of good behavior and not violate any of the laws of the State.

Charles Edward Shore, also of Cycle, who was with Pinnix in the car which had 48 gallons of white liquor, was tried Wednesday and sent to the roads for six months.

Winston-Salem police officers "jumped" Pinnix and Shore about 11:30 on the night of August 22, and in the chase that followed in Pinnix's car they hit two police cars, injured one policeman and struck a parked car, which held them until police arrived. Pinnix and Shore were unhurt.

The car was equipped with oversized fuel pumps and other double duty equipment installed for speed. The car and whiskey were confiscated and ordered sold. The attention of officers was first drawn to Pinnix's car when they noted he had his muffler open. Pinnix took off and the chase followed.

Pinnix and Shore were sent to the Yadkin prison camp to serve their sentences, but owing to crowded conditions were transferred to the Sparta camp.

Home Coming 8th A.S.T.C. Boone

Boone. — Appalachian State Teachers college will celebrate its annual homecoming on Saturday, October 8, and hundreds of alumni are expected for the event from every county in North Carolina and from many surrounding states.

The festivities will get under way with a football game on Friday, October 7, at 7:00 p. m., when the Appalachian "B" team plays East Tennessee State college. At nine o'clock that night, the homecoming dance will be held in the women's gymnasium.

At 3:30 p. m., Saturday, October 8, general alumni meeting and election of officers will take place in the science lecture hall. The Appalachian varsity will play Lenoir-Rhyne in what is expected to be one of the closest football games in the North State Conference at eight o'clock that night.

The college announces that tickets for football games may be secured after arrival from Francis Hoover, business manager of the athletic association.

Because of the largest registration that the college has ever had (1254 students) no dormitory space will be available for entertaining visitors, and alumni are urged to make hotel reservations in advance.

Clubs and campus organizations will have displays at various points around the college, all designed to be of particular interest to the alumni. The band will perform at the football games, and other events are planned to add to the enjoyment of the homecoming season.

All alumni of the college are invited, and urged, to attend.

Choate Case Is Again Put Off In Surry Court

Dobson, Sept. 29.—The trial of Dr. B. O. Choate of Sparta, charged with performing a criminal abortion, set for trial yesterday (Wednesday) in Surry Superior Court has been continued by Judge J. B. Clement on motion of attorneys for the defendant.

A statement from doctors at St. Albans Sanatorium, Radford, Va., presented to the court, declared that Dr. Choate had been a patient at the hospital on different occasions since his trial in Surry Superior Court two years ago.

The statement concluded with the assertion by the doctor at the hospital, "in my opinion, Dr. Choate is still in serious condition, and in my opinion, a trial in the Superior Court on the charges now pending against him in Surry County might seriously affect any chances that he may have for a recovery and might cause a complete breakdown during the progress of the trial."

NOTICE TO CREDITORS OF MOORE'S MEAT MARKET

Notice is hereby given that the partnership formerly existing between L. H. Hollar and M. C. Hollar under the firm name of Moore's Meat Market, has been dissolved by the death of L. H. Hollar on the 4th day of April, 1949.

Notice is also given that all persons having claims against the partnership which was in existence at the time of the death of the deceased partner to exhibit the same to the undersigned surviving partner on or before 26th day of August, 1950.

M. C. HOLLAR

Fire Prevention Week Is Planned

North Carolina farmers were urged this week to join in observance of National Fire Prevention Week, October 9-15, by eliminating some of the more common fire hazards usually found on farms.

H. M. Ellis, in charge of agricultural engineering for the State College Extension Service, asserted that the nation's annual farm fire loss includes destruction of 100 million dollars worth of property, injury to 10,000 farm residents, and the death of another 3,500 farm people.

Six known causes account for three-fourths of our farm fires," Ellis declared. "Action taken to eliminate hazards incident to these causes could save the nation 75 million dollars a year."

The specialist listed the principal known causes of farm fires as follows: lightning, 37 per cent; chimneys, flues, cupolas, stacks, 11 per cent; petroleum and its products, 8 per cent; matches and smoking, 7 per cent; sparks on roofs, 7 per cent; stoves, furnaces, boilers, and their pipes, 6 per cent; exposures adjoining other buildings, 5 per cent; spontaneous ignition, 5 per cent; misuse of electricity, 3 per cent; friction (sparks from running machinery) 2 per cent; hot ashes and open coal fires, 2 per cent; all other causes, 8 per cent.

"Carelessness in one way or another is a major factor in 90 per cent of all farm fires," Ellis declared. He added that even the number of fires started by lightning can be reduced considerably by giving proper attention to lightning rods. Principal lightning hazards are unrodged buildings, and poor ground and poor connections on rodged buildings. Connections may be damaged by livestock, equipment, ice or corrosion. The lightning protection system should be inspected at least once a year.

Ellis urged that farmers not only remove common fire hazards but also see that their farms have the following:

1. An ample supply of reserve water (at least 500 gallons) and necessary fire-fighting tools, kept handy and in good order.
2. A sturdy, safe ladder long enough to reach the tallest farm buildings.
3. Well-maintained roads and lanes leading from the highway to the farm buildings.

NOTICE OF SALE OF REAL ESTATE NORTH CAROLINA, WILKES COUNTY

Under and by virtue of the power of sale contained in a certain deed of trust executed by Richard Rousseau and wife, Parale Rousseau, dated the 30th day of May, 1947, and recorded in Book 235 page 114, in the office of the Register of Deeds of Wilkes Coun-

ty, North Carolina, default having been made in the payment of the indebtedness thereby secured and said deed of trust being by the terms thereof subject to foreclosure, the undersigned trustee will offer for sale at public auction to the highest bidder for cash at the courthouse door in Wilkesboro, North Carolina, at noon, on the 21st day of October, 1949, the property conveyed in said deed of

trust, the same lying and being in the County of Wilkes, and State of North Carolina, in Wilkesboro Township, and more particularly described as follows:

Beginning on a stone on the Salisbury and Wilkesboro road, and running north 15 3-4 degrees with the line of the W. H. Cowles deceased, 10 poles to a stake in the said line in a hollow; thence north 70 degrees West down and with

said hollow 9 poles to a stone; thence south 14 degrees west passing over the center of the well, 10 poles to a stone in the said road; thence south 77 1-2 degrees east with said road 13 3-4 poles to the beginning. Containing 10 8-160 acres, more or less.

Done this 16th day of September, 1949.

Water won't stop it!

The beautiful Chrysler New Yorker with Preumatic Fluid Drive... the simplest of all automatic transmissions.

When others cough and quit... Chrysler doesn't even splutter. Storm—damp—high-water—can't faze it! Throw a bucket of water over the engine and you can't stop it. Once again Chrysler brings you the year's most needed engineering feat. The first and only completely waterproof ignition system on any passenger car in America—and it's standard on all Chrysler models! Coil—distributor—wiring harness—spark plugs—everything sheds water like a duck! And mind you... this is only one of 50 stand-out advances this year on the beautiful Chrysler. Better see how they add up to the sweetest driving, best riding Chrysler ever built for you. Visit your nearby Chrysler dealer for an eye-opening demonstration today.
