Get ALL TEN advantages of NATURAL CHILEAN NITRATE

1. Natural. Chilean Nitrate is the only natural nitrate in the world.
2. Nitrate Nitrogen. The nitrogen is 100 per cent nitrate.
3. Sodium. Chilean Nitrate contains sodium equivalent to about 35% sodium oxide (Na₂O). This acts like potash (K₂O) and helps to make the phosphate in the soil more available.
4. Iodine. Chilean Nitrate contains iodine to help meet the needs of plants, animals, and human beings.
5. Other Plant Food Elements. Chilean Nitrate contains small quantities of other elements that contribute to strong, healthy plant growth, such as manganese, boron, calcium, iron, sulphur, copper and zinc.
6. Ideal Condition. Chilean Nitrate comes in free-flowing pellets—easy to handle and to apply in any distributor.
7. Quick Acting. Chilean Nitrate is immediately and completely available.
8. Anti-Acid. Chilean Nitrate helps keep the soil sweet.
9. Time-Tested. Chilean Nitrate has been proved by more than 100 years of research and practical farm experience.
10. Doubly Profitable—Economical. Chilean Nitrate improves the quality of crops as well as the yield. Consistently excellent effect of heavy applications year after year upon crop and soil alike makes it an outstandingly profitable and economical nitrate for every need and purpose.

"THEY'S ONLY ONE NATCHEL SODA!"

"Crops seem to like natchel soda better on account it's got all nitrate nitrogen that plants can draw off easy. And it's got soda and other minerals plants needs for strong healthy growing, too!"
