

Blue Ridge REA District Meeting And Talent Show

The Blue Ridge Electric Membership Corporation is making plans for district meetings for its members prior to the Annual Meeting which will be held in Lenoir on Saturday, September 9th. The district meetings will be held for Alleghany County Members on August 12th in Sparta; Ashe County Members on August 19th in Jefferson; Watauga County Members on August 26th in Boone. All meetings are to be held on a Saturday and in the court house of each county. Members of the Corporation that live in Wilkes and other counties not mentioned are cordially invited to attend the meeting of their choice.

The Cooperative's Electrification Advisor, E. L. Alfred, announces he is interested in the membership's local talent over the area served by the Cooperative. He welcomes all members, and their families and friends that

have string bands, trios, quartets, sextets, tap dancers and other groups that provide entertainment. He feels that the talent is in the area and wants to be notified immediately of those that are interested. These talent shows are to be held at these meetings and winners of each county will go to the Annual Meeting which will be held in Lenoir, September 9th. Prizes will be awarded to the best talent at these meetings. Those that are interested are requested to notify Mr. Alfred at Box 112, Lenoir, North Carolina as soon as possible.

At these meetings brief financial reports are to be made by the Cooperative's President, Mr. J. C. Goodman, Manager, C. E. Viverette. Also the nominating committee of the county will meet and present its slate of candidates for the Annual Meeting and other nominations can be made by petition at these meetings for other candidates for directors at the Annual Meeting.

A large number of prizes are to be given at all of these district meetings and the members are urged to attend.

Trapped In Auto

SIXTEEN-YEAR-OLD Edith Kinne screams with pain as Police Emergency Squad men try to free her from the wreckage of a car which crashed into an elevated pillar, Bronx, N. Y. The girl's father, Theodore, who was driving the auto, was uninjured, but Edith was trapped for 30 minutes with her legs pinned down by wreckage. Jacks were used to free her. She is in a critical condition. (International)

ference would be.

The fertilized portion developed a much better growth, and Warren was so well pleased with the results that he was reluctant to cut the crop of hay until his neighbors had seen it. A meeting was called and several neighboring farmers attended.

The Beaufort farmer now plans to cut the crop of hay, and after the pasture has had about two weeks to grow out again he plans to fence it and graze his hogs on it. This fall he plans to fertilize the entire pasture with a recommended analysis and seed an additional acre of Ladino and fescue.

Help fight cancer by joining one of the 3,613 county units of the American Cancer Society.

Four Linemen Killed As Cable Hits Ground

Pearson, Ga.—A high voltage power line snapped and fell on the rain-soaked ground yesterday, and electrocuted four linemen. Two other crewmen were outside the charged area and escaped injury.

The six-man crew was relocating a Georgia Power and Light Company line along a newly constructed highway between Pearson and Cogdell. A pole they were erecting in a driving rain broke a 2,000-volt line.

Only one per cent of all prisoners in America die or are executed in prison.

Pastures Need Right Kind Of Fertilizer

"It takes the right kind of fertilizer to make a pasture really grow," believes Nick Warren, Beaufort County Negro farmer of Route 3, Washington.

According to C. L. Bright, Negro county agent for the State College Extension Service, Warren seeded one and a half acres of Ladino clover and tall fescue last fall. He had an excellent stand and in the spring he top-dressed part of it with 400 pounds of potato fertilizer which he had on hand.

Warren didn't get the desired results with this fertilizer, and the county agent advised him to use a pasture fertilizer. Because he could get only 400 pounds of 0-14-14, he decided to use it on half the pasture and see what the dif-
