ers outlasted Wytheville here Thursday night to win 3 to 2 in the 13th inning.

Bob Thompson did yeoman's work on the mound and the slender moundsman showed little sign of the long battle, ending the game stronger than he started.

Bob Wright batted in all three runs and Dave Davenport contributed two doubles and a single in the 13-hit attack. In the first inning McAllister singled and was batted in by Osinski for the first score of the game. In bottom half of the first Ed Morton singled, Davenport doubled and Wright singled both runners home to go ahead in the score. Wytheville tied the count in the sixth when Martin singled, stole second and made third when umpire Theodore mysteriously ruled that Davenport dropped the ball on a tag play. He later scored on Herbert's fly to left.

In the 11th and 12th North Wilkesboro threatened with runners on second but couldn't get the winning hit. In the 13th with one out Carrabus singled for Wytheville and the side was cut down on a dazzling double play started by Davenport on third.

In the 13th with one out Morton and Hite walked and Morton went to third on Davenport's infield out. Bob Wright took three balls and then slammed the second strike into left for the winning run.

The game was exceptionally well played for a long contest and both teams were stingy in handing out breaks to the opposition. Fans were held to their seats until after 11 p. m. as each inning produced some exciting play.

At Wytheville Friday night Worth Cuthbertson bested Bill Hamlin in a pitchers battle and the Statesmen won 6 to 3. North Wilkesboro got only five hits, with Ed Morton and Dave Davenport getting two each.

Radford will play here tonight, and Galax will be here Wednesday night.

### Many New Faces To Be On Team In Games This Week

Manager Flash Loman will field a practically new baseball team here tonight against the Radford Rockets in an effort to get the Flashers started on a winning streak.

Horace Hubbard, hard hitting class man who played for years in the Carolina league and last year for Elkin, will be on first base. An infielder slated to arrive today will be at second with Ed Morton shifted to short and Dave Davenport on third. In the outfield will be Bob Hite, Pete Mills, who is to rejoin the club, and Wayne Davis.

Davis, rookie who shows plenty of power as a left handed hitter, hails from Lenoir and has been with Landis in the North State league and this season also played some in Oklahoma. Last year he was a hitting sensation at Lenoir high school. He was born in Wilkes County, a son of the late Walter Davis, and his mother lives in Lenoir.

An addition to the pitching staff is Bill Byrd, left handed ace of the Wilkesboro high school mound staff, who signed today. Byrd has a fast ball and tantalizing curve. Another pitcher will arrive today from Wilmington, N. C., along with an infielder from Oak Ridge.

During the week-end North Wilkesboro lost three close games to the high flying Blanketeers. At Elkin Saturday night Elkin took the first 4 to 2 on inability of the Flashers to hit with men on. Mike Scheer was the North Wilkesboro pitcher and did a creditable job.

Jerry Thornburg, pitcher farmed here by the Pittsburgh Pirates, held the Blanketeers down all the way in the second game until Elkin won the game 2-1 on a break in the ninth with two out. Harris hit a short bloop which the shortstop couldn't hold and the winning run scored.

Here Sunday Elkin won 5 to 3 by getting ahead in the first inning on three runs off Tige Harris' double with the sacks full. Leslie Rhoades retired in favor of Lee Bentley, who allowed only two runs in remainder of the game.

In the ninth the Flashers had a rally going with one run in and tying run on base when Hite lined into first.

Plain talk is urgently needed today on a matter that affects the pocketbooks of all taxpayers... subsidies to commercial intercity transportation agencies that long ago outgrew the infant industry stage.

The yearly expenditures of the Federal Government alone... for aid to forms of transportation other than the railroads... now approach \$1 1/2 billion. These are your tax dollars—and ours. They help provide the highways used by huge commercial trucks, the airports and other facilities used by commercial airlines, and the waterways used by waterway carriers.

In contrast, the railroads do not receive, and do not want, one single penny of subsidy. They are self-supporting. They pay more than \$1 billion a year in taxes. And their charges reflect their true costs of doing business.

We think it's time to call a spade a spade... time to point out that these subsidized carriers can destroy but not supplant the self-reliant railroads... time to urge that simple justice be done for the good of all America and all taxpayers.
