**MEDICAL ASSOCIATION HEAD BLASTS SOCIALIZATION PLAN**

San Francisco, June 27 — In a hard-hitting inaugural address here tonight, broadcast Coast-to-Coast over two radio networks (ABC and Mutual), Dr. Elmer L. Henderson of Louisville, Kentucky, new president of the American Medical Association, charged that "the administrative arm of our Government has failed us in this generation."

The fighting doctor from Kentucky, who took his oath of office at an open meeting of the A.M.A. House of Delegates here, and

whose message was heard by millions of the American people, flatly accused "little men with a lust for power" in the executive branch of the Government of seeking to make America "a Socialist State in the pathetic pattern of the socially and economically-bankrupt Nations of Europe."

The Administration in Washington, asserted Dr. Henderson, is "sick with intellectual dishonesty, with avarice, with moral laxity and with reckless excesses."

That condition must be changed, he declared, "if we are to survive as a strong, free people" — and he called upon all of the American people to share the responsibility and to uphold the Nation's ideals of freedom.

To the 144,500 members of A.M.A., who had received special invitations to hear their new president's address, he said:

**Medicine — The Target Of Cynical Men**

"Tonight I call upon every doctor in the United States, no matter how heavy the burdens of his practice may be, to dedicate himself, not only to the protection of the people's physical health, but also to the protection of our American way of life, which is the foundation of our economic health and our political freedom."

Continued the new A.M.A. president:

"American medicine has become the blazing focal point in a fundamental struggle which may determine whether America remains free, or whether we are to become a Socialist State, under the yoke of a Government bureaucracy dominated by selfish, cynical men who believe the American people are no longer competent to care for themselves.

**Under Socialism, Liberty Dies!**

"These men of little faith in the American people propose to place all our people, doctors and patients alike, under a shabby, Government dictated medical system which they call Compulsory Health Insurance. But it is not just socialized medicine which they seek. Their real objective is to gain control over all fields of human endeavor — and to strip the American people of self-determination and self-Government.

"There is only one essential difference between Socialism and Communism. Under State Socialism human liberty and human dignity die a little more slowly, but they die just as surely!"

Then Dr. Henderson, declaring that "American medicine has led the world in medical advances, and has helped to make this the healthiest, strongest Nation on the face of the globe," blasted the critics of medicine with this significant statement:

"It is not American medicine which has failed to measure up to its obligations.

"It is not American business nor American agriculture which has failed — nor the fine, loyal working people of America who have failed.

"It is the administrative arm of our Government in Washington which has failed us in this generation!"

**Press Praised For Leadership**

Stressing the fact that many already recognize the dangerous trend toward concentration of power in Washington, Dr. Henderson declared:

"If it were not for the leadership of the American press in defending our fundamental liberties, American medicine, even now, might be socialized — and under the heel of political dictation.

"The newspapers of America, with few exceptions, have taken a strong stand, not only against socialized medicine, but against all forms of State Socialism in this country — and the doctors of America are proud to take their stand beside the fighting editors of America in the battle to save our freedom and the system of individual initiative which maintains it."

**Army Plans To Open Reserve Corps School**

Washington—Sixty-two schools for members of the army's Organized Reserve Corps have been approved to open between next Oct. 1 and Jan. 1.

The schools will give volunteer reservists a chance to earn credit toward their retention in the active reserve, gain points toward retirement benefits, and obtain possible credit toward promotion.

Among the following locations which were announced yesterday as having been tentatively approved are:

Third Army — Charlotte, N. C., and Durham, N. C.

**Home Club Issue Of Journal-Patriot Is Highly Praised**

Extension Farm News, edited by F. H. Jeter, agricultural editor at State College, in the current issue had high praise for The Journal-Patriot Home Demonstration Club edition published May 4.

Comment by Mr. Jeter on the edition was as follows: "Congratulations to Mrs. Annie H. Greene and Miss Ruth Thompson for the best special home demonstration edition of a county paper coming to this office, and profuse thanks to The Journal-Patriot for cooperating with these two fine workers in observing Home Demonstration Week."

The Journal-Patriot issue of June 4 contained 24 pages, which were filled with special home demonstration club articles and many pictures of home club activities in all parts of the county.

**7 Policemen Fired, Only 1 Left On Force**

Manistee, Mich. — Seven members of this little city's eight-man police force are under suspension.

The City Commission ordered them all off the job last night on charges of taking money from parking meters. Chief Ray Heber was the only one not to be accused.

City Manager Walter Michley said the suspensions were the result of a months investigation after meter shortages were suspected.

For the time being Manistee pop. 8,700, will depend on state police and special deputies for protection.
