**DYSPEPSIA OR INDIGESTION CURED.**  
Dr. Rose and Dr. Cobbs intend visiting the cities and principal towns in the States of North Carolina, Georgia, Alabama and Tennessee, the present fall and ensuing winter, for the purpose of tendering their professional services to persons laboring under dyspepsia. They are in possession of a new and powerful remedy in the cure of this distressing malady, which is truly astonishing in its effects. This fact, connected with more than 20 years experience, and much personal suffering from dyspepsia, inspires them with full confidence in making the assertion, that by observing their rules 99 cases in the hundred will be cured. when the disease is functional; and when it has arrived at that point denominated structural, they feel confident that, by suitable auxiliaries skillfully applied, all cases within the reach of remedies will be cured.  
Dyspepsia, when symptomatic, is not unfrequently, by the friends of the patient, contounded with true Idiopathic cases. This error has always been productive of embarrassment to the physician, and great distress and suffering to the patient. Our long experience and close investigation of this subject, induce us to risk our reputation, as men and physicians, on the discrimination of the character and stage the disease, as well as on the successful application of remedying for its cure.  
Testimonials of our standing, as men and physicians, will be presented to persons disposed to test our skill; also satisfactory evidences of our success in the cure of dyspepsia, and the diseases with which it is usually connected.

**Look Out!**  
Sometime last week, in the absence of my family, my House was entered and my Desk broken open, and a Pocket-Book and a number of papers, to me of great importance, were taken out and carried off. Among them was a Judgment on William Rudd, for ninety five dollars, obtained before Gabriel Macon, Esq. of Warren county; and the following Bonds, viz. two Bonds on Warner Taylor, for sixty-five dollars each, both of them made payable to Robert Jones, Junr. and endorsed by said Jones and Daniel A. Paschall, and dated the 6th of Sept. last, and due six months from date; one Bond on William Duke, for eighty-five dollars, dated some time last Spring, and due on Christmas next; and a Bond on William Norwood, for twenty-two dollars and fifty cents, due next Christmas and bearing interest from the date. A number of other bonds and receipts were likewise taken, which I cannot at present specify. Notice is hereby given of the manner in which the above described papers have been taken out of my possession, and that I have not parted with my interest in them. Should any of them be offered for sale or payment, I hope to be informed immediately by whom it was done.

**Robbery!**  
ON Sunday night last, as the undersigned was on his way from Oxford, he was attacked, near Mr. Lewis' gate, about 7 miles from Oxford, by two persons, and robbed of his Pocket-Book, containing 182 Dollars—also, a Note given by Jesse Mabon, in May last, to the undersigned, for 150 dollars, witnessed by Saml. Gordon; and a receipt for 125 dollars given by John Caldwell, in May last, together with a number of other papers not recollecting. Amongst the money was a \$50 note on the State Bank of South-Carolina, signed S. Elliott, cut in the middle and pasted—this note may be known by a small cut between the S and E. of the signature—three or four \$20 notes of the same Bank; one 20 on the State Bank of North-Carolina, torn about half way nearly in the middle; one \$5 Virginia note, 10's and 5's the remainder consisting of a liberal reward to be paid for the recovery of the Pocket-Book, its contents, or any part thereof, and whose cause of justice will be served by those disposed to discover and bring to punishment the perpetrators of this daring robbery.

**SELBOTOINS.**  
**ELOQUENCE OF A CLERGYMAN.**  
The following extract from an address (remarks the Rich. Whig,) delivered in England is sufficiently interesting in itself; but derives particular relish from having emanated from a clergyman of that established church, whose interests oppose the strongest barrier to Reform in the Government. When such men celebrate the achievements and back the rights of the People, we may believe Cobden when he says Reform, Radical Reform, MUST COME.  
**REFORM IN ENGLAND.**  
At a meeting held in Leicester, England, to celebrate the triumph of the French, the venerated Charles Berry, after an eloquent tribute to the French, who he said "merited the eternal gratitude of mankind," who "now stood in front of the civilized world," and "who in three days had done more for the cause of freedom than we had achieved since the time of Caesar and the Romans," proceeded to say, "This is, undoubtedly, the greatest blow that has been given, in our time, to kingcraft and priestcraft; these two are generally combined; and now mark, gentlemen, what I am about to say; if I have well weighed any part of my address, it is this—I will use no terms that I have not selected, and I declare that of King craft and priest craft, the latter is more mischievous than the former [cheers.] I mean not Catholic only, but all the Protestant priests; I mean not only the priests of France, but likewise of the town and county of Leicester.  
I verily believe that they are the most inveterate and implacable foes that the liberties of mankind have to contend with [cheers.] Some honorable exceptions, no doubt, there are; but as a body, they are the sworn apostles of bigotry, and cruelty, and slander. What has occurred the last few weeks amongst us, justifies me in thus speaking, & no reform in Eng'd will ever be worth considering that does not clip the wings of these gentry, and place them more in accordance with the spirit and light of the age; that does not render them the enlightened guides of the flock, instead of what they too generally are—mean hypocrites, odious tilthunters, ever active to keep the people in slavery and darkness [cheers.] I will venture to warn them, that if ever a revolution should be effected in this country, their conduct will not be forgotten; they will drink deep of the cup of retribution.  
It is a still more painful consideration, that the spirit and conduct of the energy will produce among the rising generation a contempt for religion and its ministers, and render infidelity as fatally prevalent amongst us, as it is reported to be in France [cheers.] I will only add, that I rejoice in these events, not only as great in these events, but because they are pregnant with important and beneficial consequences to other nations, and think what a glorious occurrence that must be, which not only benefits the country in which it happens, but extends its healing influence to surrounding nations: which moves and agitates, not to injure, but to bless mankind. Depend upon it, there is not a despot upon the earth, that does not turn pale when he reads the story of the French revolution; he involuntarily raises his hand, and feels whether his crown is upon his head and if so, whether it sits firmly; and he will look round to see if he can, even by stealth, do something that may procure him a little popularity, and lighten the fetters of his subjects, or rather his slaves [laughter and cheers.] This event has already shaken Belgium; it will overthrow the miserable tyrants of the Peninsula: It will regenerate Italy, Prussia and Germany, and even Turkey, Russia and China will one day reap the advantage of it. Last, but not least, we do more than any thing that has ever occurred to bring about a reform in this country [cheers.] Thank God, we are an intelligent people and a liberal minded monarch, and if the inhabitants of England have but a portion of the union, and valor, and generosity, and devotion to the public good, which has been so strikingly displayed in France, it will not be long before they have accomplished such a reform as our representation as shall render the horrors of a general convulsion unnecessary."

**CENSUS.**  
Gilbert Sellers, Esq. the Deputy Mar' shall for Robeson county has furnished us the following statement of the Census of that county:  
White Males, 5310  
Female, 3220  
Male Slaves, 1244  
Female do, 1228  
Free col'd Males, 319  
Female, 283—9408  
Of whom 2 whites and 1 black are deaf and dumb, and 2 whites blind.  
The increase since last census, 1202.  
Onslow county contains 7813 inhabitants of whom 4548 are whites, 3144 slaves, and 101 free colored—showing an increase since 1820 of 797. 2 whites and 2 blacks deaf and dumb.  
Edgecomb county contains as follows:  
Whites, (males 3781, females 3849,) 7630  
Slaves, (do. 3638, do. 3437,) 7075  
Free col'd (do. 111, do. 117,) 228  
Total, 14,938  
Of whom 1 white and 1 black are deaf and dumb. The increase is 1557.  
Gulford county contains 18,635 inhabitants, showing an increase of 4124.  
Surry county contains as follows:  
Whites, (males 6084, females 6281,) 12,365  
Slaves, (males 915, females 1032,) 1,947  
Free col'd, (males 87, females 101,) 188  
Total, 14,500  
Deaf and dumb 6. Upwards of 100 years of age, 3. Increase since 1820, 2180.  
Davidson county contains 13,421 inhabitants. This county was a part of Rowan when the last census was taken.

**CENSUS CALCULATIONS.**  
We have the returns of the Census from twelve counties in this State, embracing nearly one-fifth of the whole population, viz: by the last census, 125,220, and 144,109 by the present. The gain has been nearly 19,000, or 15 per cent. Supposing the rest of the State to have increased in proportion, the gain will amount to about 95,000; but we think the Western Counties will show a larger proportionate increase, and that the entire gain will be about 110 or 112,000. We therefore estimate the whole population of the State at about 730,000; which will be about sufficient to pre-serve us from the loss of a Representative in Congress, supposing that the ratio will be fixed at fifty thousand.—Obs.

**PARTY NEWS.**  
For this article we are beginning to feel the most thorough disgust. It is lamentable that we can place no confidence in partisan statements, even of facts. We said last week that a Jackson Senator was elected from Vermont; and we said so upon the authority of what claims to be a leading and respectable newspaper in New-York. Now we have every reason to believe that the aforesaid Senator is a Clay man. We despise this pitiful system of party falsehood. In the name of Heaven, give us facts correctly whatever you may do with inferences. No good fate ever attended a liar, and whether he belongs to our party or some other, we heartily wish him in the pillory. Matters have really arrived at that pass, that nothing like truth can be gotten at in party news.—Camden Journal.

**EXTRAORDINARY SPEED OF A STEAM CARRIAGE.**  
In the London Globe and Traveller of the 14th of Oct. is the following article taken from the Taunton Courier.  
"Unparalleled Engine Trip.—Mr. Stephenson, the proprietor of the Rack-pool Rail Way, had this week decided in his favor a wager of one thousand guineas upon the speed of his Engine by traversing the distance between the two towns, (thirty two miles,) in thirty three minutes—or in other words, at more than 58 miles per hour."

**RICH ORE.**  
We have been informed, from undoubted authority, that at Mr. H. Harris' mine in Cabarrus county, there was found by Mr. Isaac McClellan, a few days ago, 2,500 and forty pennyweights of Gold in 110 bushels of ore, one half of which was obtained from 6 bushels of ore. The whole was found in a vein about fifteen feet below the surface. This is the most extraordinary product from the ore that we have heard of yet, and from the manner in which it was communicated to us, we doubt not its correctness.—Miner's Journal.

**EFFECTS OF FREE TRADE.**  
As one fact is worth a thousand assertions in settling the disputed question whether we gain any thing by the opening of the West India ports, we state that we saw a friend receive a bill of lumber a few days ago, to be sawed and delivered at Wilmington, for which he is to be paid 10 dolls. cash per thousand feet, and for which, two months ago, he could not have got six, even by giving a

long credit. The Editor of the Cape Fear Recorder could no doubt give us some valuable information on the subject of the effect of the opening of the Ports upon the trade of that town. He would lay us under an obligation by doing so.—F. Obs.
