### THE PREMIUM CIRCULAR. SAW MILL.

January 31, 1852.

NEW arrangement by which the objections to not being able to cut large logs, and the expense . ceived and for sale low by of large Saws, are effectually overcome. With 30 or 36 inch Saws, the largest logs can be cut, and with one half the power necessary to drive the common crank or Circular Mill. They are much stiffer, cut away one third less timber, and the Saws cost from 10 to 16 dollars each. It is decidedly" the most expeditious and economical as well as the cheapest Macnine now in use for making timber, and is easily managed and more easily kept in repair than a Crank Mill, as can be shown by numerous testimonials. The Patentee is now stopping in Raleigh for a short time, for the purpose of disposing of the Patent in State, County or individual Panama, Leghorn and Palm Leaf Hats, rights. And also a few Machines which will be put White and Black Round Crown Hats, up and guaranteed to cut double the timber of any other Mill with 6 or 8 horse Engine, or small water power, or no sale.

and the market price will be given. tf 10 February 8, 1852. Laurinburg High School.

RICHMOND COUNTY, N. C. THE undersigned Committee will receive appli-

cations for a Principal Teacher to take charge of the above Institution. The buildings, which are spacious and convenient, are situated in a healthy and pleasant neighborhood, and will be prepared

for the reception of Teacher and Students early in July next, when the Institution is expected to go into operation.

"Laurinburg High School" is gotten up by a joint stock company, who intend making it what its name imports, a "High School" of the first order in which boys can get a thorough and complete En-

glish and Classical education in the country with-Parming purposes. Also, a fresh supply just re- out going to College ; or should they have the means ceived of Taper and Lamp Oil. Also, a supply of and the inclination to do so, they will be well pre-the best burning Fluid I have ever had. Also, a pared to enter College far advanced; consequently A Circular Saw Mills, of their tendency to heat, good supply of Olive Oil, fresh and sweet, just re- none will be expected to apply who may not be fully qualified to conduct such a school. It is also indispensable that the Teacher shall be a gentleman not only of the necessary scholastic attainments for 28 tf the instruction of youth, but also of undoubted mo-

ral and religious demeanor. A gentleman of small family, of some experience in teaching, would be preferred, who might board some of the students, and enjoy the quietness and retirement of his own fireside, in a large and commodious house specially prepared for that purpose. A salary of at least Eight Hundred Dollars will be secured to him-the

It has capacity for the accommodation of one hundred and fifty boarders, and the recent and rapid growth of the University, adjacent, makes it an

easy matter to possess constantly such or even a greater number of students. In addition to this, the frequent travel through Chapel Hill gives the Hotel, (being the only one in the place) a transient custom equal to any in the

The lots and stables adjoining are extensive and commodious and the country-market supplies abun-

dantly and on profitable terms much of its provisions. The terms of sale require one third of the price to be paid on taking possession. A note with safe security and time of payment suited to the conven-

ience of the purchaser, are the reasonable demands for the remainder. If further information be desired concerning the inducements to purchase, the President of the Uni-

versity or any other resident of the village, will furnish it. Possession can be obtained at any time, after the

Important to Millers and Mill-

owners!

THE Undersigned would respectfully inform those engaged in the Milling business in North Carolina, that he keeps constantly on hand, and will supply at the shortest notice, that almost invaluable article,

Young's Improved Patent Smut and Screening Machine.

The only Machine of the kind that has stood the test and given satisfaction to the public. It has supplanted every Smut Machine yet offered in the State, more or less of which have been taken down position, as there are now some 280 Machines run-ning in North Carolina ; and I wish to offer no other references than the gentlemen who are using them, whose expectations have been more than realized in their performance. It not only thoroughly cleanses the Wheat of Smut, but also purifies it of all other substances, almost to perfection. It takes up but 4 feet square in the mill and requires but little power. It is warranted for five years against breaking or wearing out, and also to retain its cleansing qualities for that time.

There are a number of these Machines through which 100,000 bushels of Wheat have been cleansed and they have never been out of order one day. There was awarded to it the Premium of the Maryland State Fair, and a Premium with a silver medal, at the Fair of the Maryland Institute, at Baltimore, last Fall.
