THE Undersigned would respectfully inform those engaged in the Milling business in North Carolina, that he keeps constantly on hand, and will supply at the shortest notice, that almost invalua-

Young's Improved Patent Smut and Screening Ma-

The only Machine of the kind that has stood the test and given satisfaction to the public. It has supplanted every Smut Machine yet offered in the State, more or less of which have been taken down to make room for it. The public need fear no insposition, as there are now some 280 Machines running in North Carolina ; and I wish to offer no other references than the gentlemen who are using them, whose expectations have been more than realized in their performance. It not only thoroughly cleanses the Wheat of Smut, but also purifies it of all other substances, almost to perfection. It takes up but 4 feet square in the mill and requires but little power. It is warranted for five years against breaking or wearing out, and also to retain its cleansing qualities for that time.

There are a number of these Machines through which 100,000 bushels of Wheat have been cleansed and they have never been out of order one day. There was awarded to it the Premium of the Mayland State Fair, and a Premium with a silver medal, at the Fair of the Maryland Institute, at Baltimore, last Fall.
