It affords me pleasure to state that Dr. Jesse Hampton's Tincture has effected a most extraordiuary cure of my slave boy Albert. The patient was three years old, and had the Scrofula-(his father is scrofulous.) The boy was a moving mass of ores from head to foot-the upper lids of the eyes

were much swollen, and turned inside out, exhibiting horrible mattering ulcers, that protruded over the eye-ball so as to produce blindness. It is strange yet true, this child, that I felt resigned to lie as a relief from suffering, has been restored to health under the treatment of Dr. Hampton. W. P. THOMASSON.

produce disease of this class, are always of the most malignant, poisonous quality, and no safety to life exists while any portion remains in the bow-els or the blood. Should the first dose not cure, be not alarmed, but reiterate that dose. Should the evacuations be very putrid, of bad odor, unnatural color, &c. &c., besides using four or six pills twice a day, take also, a tea spoonful of powdered charcoal, in water, every day while these symptoms continue. Let your diet be light, and of easy digestion, as arrow root, rice, pudding, Indian meal gruel; also, sheep's head broth with rice and a piece of cinnamon boiled in it, or calves head broth. Sheep's head makes the best diet if it be boiled until the bones are clean. As a rule, the first dose of pills cures when timely used. Sometimes three or four doses may be necessary. There are cases in which it takes weeks to cure, but they do not occur once in a thousand times. In any event, no medicine or plan of treatment is better than that

## Headley's New Work. JUST PUBLISHED.

Lives of Winfield Scott and Andrew Jackson, by J. T. HEADLEY. 1 col. 12 mo., with Portrails. Uniform with "Napoleon and his Marshalls."-\$1 25

Scott and Jackson are here placed together as the two military men who have made the deepest impressions on their country since the time of Washington. They both achieved a brilliant reputation in the war of 1812, and by the battles of Chippewa, Niagara, New Orleans, etc., gave their country a reputation at home and abroad, and though differing widely in some characteristics, they were very similar in others. The author has not only sketched the biography of each, but has given a faithful and graphic description of the brilliant battles in which they were engaged. The biography of Winfield Scott, which constitutes the greater part of the volume, is full and authentic, the materials for it having been derived from public documents and from many officers who had served under Scott .--It presents to the reader also a panoramic view of the brilliant campaign of Mexico, embracing the Fancy printed Druggets for Crumb Cloths, storming and capitulation of Vera Cruz, the battles | Rich fancy Piano and Table Covers. of Cerro Gordo, Churubusco, Contreras, Molino del Rey, Chepultepec, storming of Mexico, Triumphal Entry, with description of the scenery personal incidents, etc. The author has fully sustained the reputation acquired by 'Napoleon and his Marshals, and other works, of which over 200,000 volumes have been sold.

A Tale for the South and North, by Rev. B. R. HALL Author of " Something for Everybudy," " Ven Parchase," &c. 1 vol. 12mo. 75c.

This work, while it advocates the cause of the African, would do justice to the South. It would awaken sympathy, but not excite wrath, nor turn pity for the Negro into vengeance against the White, nor inculcate treason under pretence of love and freedom. It would have love to do the work of hate. It will be marked with the characteristics of the author, so well known to the public by his previous works, of whom it was said in the publication of "The New Purchase," that "He was master of many styles, and had stepped to the highest round of the ladder at once." The work is no defence of slavery: but it would be a balance-wheel, not to stop, but to concentrate, equalize, and direct other motives. It treats the ultraism of the North to the Lex talionis. The writer witnessed much that he describes, and real persons are introduced under new names, so that the work, while it will posses the interest of fiction, is not only true to life, but in many of its seenes and characters is true in fack.

GREAT CURE FOR DYSPEPSIA-ANOTHER SCIENTIFIC WONDER; DR. J. S. HOUGHTON'S

# The true Digestive Fluid.

R GASTRIC JUICE.—This is a great Natural Remedy for Indigestion, and Dyspepsia, curing fter Nature's own Method, by Nature's own Agent, the Gastric Juice. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice -the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, and Perfect Substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Dedine and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Cuious and Remarkable.

BARON LIEBIG, in his celebrated work on Aninal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucus membrane of the Ox, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the human stomach." Half teaspoonful of pure Pepsin, infused in watry it, I invite all to call and see or send/in their ter, will digest or dissolve Five Pounds of Roast Beef in about two hours out of the stomach. DR. HOUGHTON'S PEPSIN is sold by nearly

all the dealers in fine drugs and popular medicines throughout the United States. It is prepared in Powder, and in Fluid form-and in Prescription Vials for the use of Physicians. PRIVATE CIRCULARS, for the use of Physi-

cians, may be obtained of his agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in Pepsin is put up in the form of Powder, with di- long established, universally prized, and which has rections to be dissolved in water by the patient .- | met the hearty approval of the faculty itself." prepared by DR. C. M. JACKSON, at the German Medicine Store, No. 120, Arch Street, Philadelphia. Their power over the above diseases is not excelled, if

equalled by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had fuiled.

These Bitters are worthy the attention of invalids. ossessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the nost searching powers in weaknesses and affections of the digestive organs, they are withal, safe, certain, and pleasant.

READ AND BE CONVINCED. [From the "Boston Bee."] The Editor said, Dec. 22d.

"Dr. Hoofland's Celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at

our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances .--We are speaking from experience, and to the afflicted we advise their use.

"Scorr's WEEKLY," one of the best Literary papers published, said, August 25-"Dr. Hootland's German Bitters manufactured by ticle of much efficacy in case of female weakness. As such is the case, we would advise all mothers to obtain a bottle and thus save themselves much sickness. Persons of debilitated constitutions will find

these Bitters advantageous to their health as we know from experience the salutary effect that they have upon weak systems." Judge M. M. NOAH, a gentleman of great literary

and scientific attainments, said in his "New York Weekly Messenger," January 5, 1850: "Dr. Hoolland's German Bitters .- Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the eason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times, the late Dr. Christopher Wilhelm

Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of he greatest medical writers Germany has ever pro- | what I foresaw from its composition, must be true, luced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inenter and endorser may be confidently relied We specially recommend it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation and all complaints arising from a disordered condition of the stomach, the Liver and the intestines. Nine Philadelphia papers express not only in the following cases, but a thousand

their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article ceiving benefit from a change of climate and dict. to all afflicted.
